

## CHEMICALS ARE RESPONSIBLE FOR FIRE ON VOLTURNO

Drum Explodes Says Third Officer Disselman, of Steamer

FLAMES TRAP MANY Between Eighty and Ninety Steerage Passengers Burn to Death

NEW YORK, Oct. 15.—New York took in and sheltered today the first survivors of the steamship Voltorno to arrive in this country. 105 in number, brought into port by the Grosser Kurfurst, the North German Lloyd liner that sent the first rescue boat carrying across the heavy seas to remove passengers and crew from the burning ship.

From the lips of some of the Voltorno survivors there came today the heroic conduct of the Voltorno's captain, officers and some of the crew, and of men who manned the lifeboats that put forth from other ships.

The explosion of a drum containing chemicals was the cause of the fire, according to the story told by Captain Disselman, third officer of the Voltorno. Disselman gave a thrilling narrative of the long hours spent on the three-riden ship, fighting the flames, retaining the crippled wireless plant, lowering the boats, quelling the panic-stricken steerage passengers, and keeping her from drifting while the waves were running too high for small craft from other ships to accomplish the journey to the Voltorno's side.

**SCORES BURN TO DEATH**

Between eighty and ninety passengers on the Voltorno were trapped in compartments No. 1 by the first explosion on the vessel Thursday morning, and either perished at once or were burned alive, said Disselman.

In broken English, Disselman, a quiet, unassuming man of about 35 years, told of his experience during the eighteen hours he was aboard the fire-ravaged vessel. The cause of the fire he established as an explosion of a drum containing chemicals or oil in the forward part of the vessel.

"I was just going to the bridge," he said, "when the first explosion occurred. The Voltorno trembled as if she had been struck by a heavy shell. Almost immediately other drums began to explode. There was a rapid fire of explosions that sounded like thundering.

"Captain Loch was on the bridge. I heard him shout out to man the lifeboats. Passengers were ordered to get into the lifeboats. The officers were on the bridge. A male voice was heard and the men were sweeping in great rollers around us. The passengers crowded the rails so that the sailors had difficulty in lowering the boats. The small drums and cases of chemicals were exploding by the dozens every minute. No one thought the ship could last five minutes.

"Flames swept up from No. 1 compartment forward and leaped to the foremast. Within a few minutes it was blazing. The sails fanned the flames.

**COULD NOT RESCUE**

"None of us had thought about the fifty or ninety steerage passengers in No. 1 compartment. We had not had time to do so, we were busy fighting the flames. I don't know how many of them were in their places when the first explosion occurred, but I fear that most of them were there. There were about a dozen flames. We can only imagine what happened to them, as none of us were able to get into that compartment again.

"When it seemed that the flames had died down somewhat, the captain tried to go into the sailors' foremast. He found the bodies of four sailors, burned to death in the hallway. They had been trapped by the fire.

"Ranking well up with the heavy display by Captain Loch, of the Voltorno were the feats of daring of several of his officers, among them Second Officer Lloyd. While ten men were manning the lifeboats, the Voltorno after darkness had settled on Thursday Captain Loch witnessed:

"We can't stand this long. Our boats are gone. Send boats."

No more boats came in response to Loch's wireless.

Second Officer Lloyd, taking four men with him, was in a damaged lifeboat, the Voltorno's last, and showed that it was possible to ride the seas.

**OFFICER SETS EXAMPLE**

Second Officer Von Carlsberg of the Grosser Kurfurst told the story of how Lloyd and his crew set the example for the other ships.

"We saw a light—it was Lloyd's pocket lamp, dancing up and down on top of the waves," said Von Carlsberg, "and in a short time the Voltorno's boat reached us. Second Officer Lloyd and his crew were in the boat and so sooner than they boarded the Kurfurst than their boat sank, being nearly full of water."

Von Carlsberg commanded the first lifeboat that put out toward the Voltorno as a result of Lloyd's venture. Besides the Grosser Kurfurst, other liners that had come to the Voltorno's assistance, lowered lifeboats and assisted in the dangerous work of rescue. The Carlsberg, which had rescued the Voltorno's wireless calls for help to the other steamships, did not dispatch any lifeboats, according to Second Officer Lloyd of the Voltorno.

"When we got alongside the Voltorno," said Second Officer Von Carlsberg of the Kurfurst, describing the first trip to his boat, "I heard screams on board and I decided to keep away, for I figured that some of the panic-stricken people might jump into our boat and upset it. I shouted to the officers of the Voltorno to tell (Continued on Page 2)

## RARE GOWNS AND FLOWERS FEATURE CHINESE WEDDING

PORTLAND, Ore., Oct. 15.—Rare gowns, a \$10,000 dowry, and one of the most elaborate wedding ceremonies of the season in Portland were features of the Chinese nuptials solemnized at the White Temple here tonight when Fosseline L. Goss, daughter of Goss Dip, vice-consul at Seattle, became the wife of Low Goss, son of Seattle. Floral decorations costing hundreds of dollars literally embellished the interior of the big Baptist church where the ceremony was held.

The bridegroom was one of the first Chinese natives of the United States, selling papers in Portland. Low attended school in Seattle, graduating from Washington University.

The bride's parents are among the richest Chinese in the Northwest. The bride's gown was imported from Paris. Rev. W. B. Hanson tied the knot according to American procedure with Chinese variations.

## HINDU CONFESSES TO SLAYING GIRL

Said Ali Khan Caught At Mexican Border; Tells Why He Killed

EL CENTRO, Cal., Oct. 15.—Said Ali Khan, the Panjabi captured near the Mexican border today by Undersecretary Appleton, made a statement in jail here today in which he admitted having slain a girl named Sita, the daughter of a man whose body was found in San Francisco Bay a few days ago. The prisoner, in custody of an officer, started for the north shortly after word.

"I strangled her," he said, "because she refused to go away with me after I had saved her from drowning. She was in the hands, threw her down and strangled her with my knees on her neck."

Khan said the girl was known to him as Rosa Downing Riley. She went to his shack near the match factory in Contra Costa county, where he worked, Thursday night, October 10.

Next day, the prisoner added, he pleaded with her to go away with him, and she refused. He refused to let her go.

After strangling her, Khan wrapped her body in a blanket and dragged it to the river and threw it in. He came to Imperial Valley immediately after the crime, Khan said he went into Lower California and obtained work with a number of other East Indians on the ranch of J. H. Sherman. Sheriff Mobley Meadows received word from San Francisco that the suspect was in this vicinity, and searched all the colonies of Hindu laborers. Khan was located two days ago and the officers waited for him to cross the international line. When he did so today at a point near Calexico, Meadows told him that his confession was made. Khan or a number of other Hindus who were with him.

**THROWS GIRL IN BAY**

SAN FRANCISCO, Oct. 15.—The body of the young woman cast into San Francisco bay, near Stege Park, on the Contra Costa shore, was identified a week ago last Sunday as that of Rosa Downing, a Portuguese girl of humble parentage, who had worked as a waitress in Oakland and San Francisco.

Her intimacy with said Ali Khan, employed in a match factory, was known to her parents, who lived near the little shack in which said Ali Khan lived. They did what they could to discourage it. Letters found in Rosa's room from said Ali Khan indicated that she had gone to visit him Friday night, a week ago.

The girl's father was found by the police had good descriptions of him and the publication of his picture brought a number of clues from persons who thought they had seen him on railway trains.

But it had not been for an unusually long time, the mother might not have been discovered, for the body was heavily weighted with chains.

## PROGRESSIVES CANNOT GO ON STATE BALLOT

Maryland Candidates Fail to Present Nomination Papers in Time

BALTIMORE, Oct. 15.—For their alleged failure to present nomination papers within the time prescribed by law, Attorney General Lee submitted today an opinion holding that the state candidates of the Progressive party could not go upon the ballot at the elections next month.

The Progressive candidates affected are George L. Wellington, nominee for U. S. Senate; Joseph R. Williams for state controller, and William C. Smith for clerk of the court of appeals.

At a meeting of the Progressive leaders tonight it was decided to file a petition in court tomorrow to compel the secretary of state to certify the nominations in question.

## FORTUNES GIVEN BRIDE AND GROOM

BALTIMORE, Oct. 15.—It was learned today that Henry Clay Frick, just after the marriage of his son, Childs Frick to Miss Pamela B. Dixon of this city yesterday, handed the bride an envelope containing a check in her name for \$2,000,000. It is understood that young Frick received securities valued at \$12,000,000.

## ABANDON HOPE OF RESCUING MINERS

Fire Again Breaks Out In Wales Colliery; Not Under Control

CARDIFF, Wales, Oct. 15.—All hope of rescuing more of the miners entombed in the Universal colliery, where an explosion occurred yesterday, practically has been abandoned. The report that a party of twenty-nine men had been found alive in one of the galleries has proved erroneous, but a large number of bodies were encountered today.

No official reports have been issued and this has caused much comment. Fire broke out anew this afternoon and still is raging. There are no further signs of life in the pit.

Up to a late hour tonight forty-nine bodies had been recovered, while 368 miners were still missing. The shift which worked into the mine yesterday number 931.

The engineers have decided to devote their efforts to subduing the fire, as they believe it useless to persist in the attempt at rescue.

## "RITUAL MURDER" TRIAL CONDEMNED

Episcopal Prayer Book To Eliminate Jewish Classification

NEW YORK, Oct. 15.—The ritual murder trial at Kiev, Russia, was condemned in a resolution adopted today by the house of deputies, the joint legislative assembly of the Russian empire, at a session in the city of Moscow.

The resolution, which was adopted by a vote of 100 to 10, condemned the trial as a "ritual murder" and a "violation of the principles of justice." It also called for the immediate release of the accused and the abolition of the laws governing the trial.

## 3,000 METHODIST MINISTERS PAID LESS THAN \$500

WASHINGTON, Oct. 15.—More than 3,000 Methodist ministers in the United States preach and work the year around for less than \$500 each. This was the report of the bureau of sustentation today when the board of managers of the Methodist Women's Home Missionary Society began its thirty-second annual meeting here. The bureau lamented that such a state of affairs could exist in this most highly favored land at this time of high cost of living.

The report of the treasurer, Mrs. George H. Thompson, of Cincinnati, showed that the receipts of the society for the fiscal year were \$301,622.

In her address, Mrs. George H. Thompson of Cincinnati, president of the board, denounced the law recently passed in Florida prohibiting whites from teaching negroes, and negroes from teaching whites.

asking to declare the office vacant and appoint a successor, is authority for the statement that the Attorney General had declared to him that there is no law in the state of California to hold Judge Smith to be ineligible to reappointment to the vacancy. Judge Smith will be a candidate for reappointment when the supervisors take up the matter of the vacancy. This will probably be next Saturday forenoon to which time the board has adjourned.

**FORFEIT, SAYS OPINION**  
The essential part of the opinion from the Attorney General's office, as embodied in Mr. McCormick's communication to the board, is as follows:

Section 9 of Article VII of the Constitution reads, in part: "The legislature shall have no power to grant leave of absence to any judicial officer; and any such officer who shall absent himself from the state for more than sixty consecutive days shall be deemed to have forfeited his office."

"That which the legislature cannot do directly by reason of a constitutional prohibition, it may not do indirectly by delegating the power, so to do to any inferior body."

A justice of the peace is a judicial officer. As the legislature is prohibited from granting a leave of absence to a judicial officer so it cannot confer upon a board of supervisors to grant such leave of absence. Therefore, Section 4313 of the Political Code, in so far as it purports to authorize the board of supervisors to grant leaves of absence, can have no operation with respect to those county or township officers who are judicial officers.

But the legislature has, consistent with the constitution, the power to determine when vacancies shall occur in public offices created by the legislature. Under the decision in People ex rel Fleming vs. Shorb, supra, be guided by Section 556 of the Political Code and Section 4313 of that code, eliminating from the latter, however, when dealing with judicial officers, all matter relating to leaves of absence.

"Nothing it follows upon the authority of the case noted above that a vacancy occurs ipso facto upon the absence from the state of a justice of the peace for a period of more than sixty consecutive days, irrespective of whether he has the permit or excuse of the board of supervisors to such absence."

**SMITH STILL ON JOB.**

Justice of the Peace Smith declared last night that he would be at his office this morning as usual to transact business. Smith said that he would take the case up with his attorneys and that if they advised him to do so he

## COMPLICATION OF WOMAN'S ILLS

Yields to Lydia E. Pinkham's Vegetable Compound.

Athens, Texas.—"I had a complication of diseases, some of them of long standing. I wrote to you for advice and took Lydia E. Pinkham's Vegetable Compound, and some other things that you suggested. I must confess that I am much better in every way and have been relieved of some of the worst troubles. My neighbors say I look younger now than I did fifteen years ago."—Mrs. SARAH R. WHITLEY, Athens, Texas, R. P. D. No. 3.—Box 92.

We know of no other medicine which has been so successful in relieving the suffering of women, or received so many genuine testimonials, as has Lydia E. Pinkham's Vegetable Compound.

In nearly every community you will find women who have been restored to health by this famous medicine. Almost every woman you meet knows of the great good it has been doing among suffering women for the past 30 years.

In the Pinkham Laboratory at Lynn, Mass., are files containing hundreds of thousands of letters from women seeking health, in which many openly state over their own signatures that they have regained their health by taking Lydia E. Pinkham's Vegetable Compound, many of them state that it has saved them from surgical operations.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

## CHINESE ELOPERS CAUGHT BY POLICE

Dora Seu, Age 13, Taken From Train At Tracy With Wong Young

The elopement of Dora Seu, the pretty 13-year-old stepdaughter of Ching Kee, a Chinese merchant at 1045 China Alley, with Wong Young, aged 26, was frustrated yesterday by the quick action of the Fresno police by having the couple taken from the train at Tracy. A warrant charging Young with kidnapping was sworn out yesterday afternoon in City Justice Graham's court and Truant Officer Stanford left on the evening train for Tracy. The Chinese couple will be returned to Fresno this morning. Young will be taken to jail while the girl will be lodged in the juvenile school.

The elopement of the little Chinese girl was discovered yesterday morning when she was reported from the Lincoln school. The case was turned over to Stanford and upon reaching the Kee home he learned that the girl had started to school. Questioning of an older sister of the girl brought the information that Dora had left her sister while on the way to school on the pretense that she had left something at home. Kee suspected that his daughter had been enticed away by Young, who had been forbidden the Kee home because of his reputation, and communicated his suspicions to the officers. Telephone calls were sent to the officer along the road from here to San Francisco and at 2 o'clock in the afternoon word was received of the capture of the couple.

Young is a singer from San Francisco and has been in the Fresno Chinatown for a month. He is reported to have a "bad" reputation in San Francisco and Kee refused to permit him to court his young stepdaughter. While Young has been charged with kidnapping the officers say the girl went voluntarily.

Smith said he thought he was still in office, as a large number of the ablest lawyers in this city held he had not forfeited his position.

Smith intimated that if any one else was appointed to the office he would carry the case to the Supreme court. He remarked that if he was out of office, he had forfeited his position through no fault of his, as the supervisors had extended his leave of absence and he supposed they were acting within their rights or he would not have stayed in Washington.

Smith said he thought he was still in office, as a large number of the ablest lawyers in this city held he had not forfeited his position.

## START SHIPPING EMPEROR GRAPES

Considerable Early Fruit Is Sent Out In Drums; Malagas Soar

The shipping of Emperor grapes, the last of the San Joaquin Valley deciduous fruits, has started, although the movement at present is very light. A large amount of the earlier fruit has been shipped in drums, although some crates shipment have been made. The greater part of the shipment this year will be in crates, although it is said that many are planning to ship in drums and put the fruit in storage in the East, for the holiday trade. Last year a number of growers were very much disappointed in the returns received from grapes shipped in drums.

The total movement of Emperors out of this district this year will probably be between 400 and 500 cars. The crop is considerably shorter than last year.

Shippers are still sending out a few cars of late Malagas every day. Malaga prices in the East have gone soaring in the past few days and yesterday the Pioneer Fruit Company received a gross return of \$400 for the car, and the other bringing but over \$1,500. There are very few Malagas left here and it is expected that all shipping will be over by the first of November.

## CONFIDENCE OIL SUES TO CANCEL A LEASE

Bisley Lefever Is Placed In Charge of Litigated Property As Receiver

Suit to cancel a lease agreement, to declare a forfeiture of any right to the property, to forbid the removal of improvements and for the appointment of a receiver was brought yesterday by the Confidence Oil Company against J. W. Brunton and H. E. Hales. The receiver was appointed in the person of Bisley Lefever under a bond of \$15,000.

The oil land in section 31-13-15 in the Coalinga field was leased to the company by the Southern Pacific company on May 13, 1910, with a modification of the lease under date of Feb. 1912, under which the Confidence Oil Company entered into possession, erected improvements, sunk wells and pumped oil. Prior to July 3, 1912, its directors, J. J. Vincent, E. A. Walron, Frank Cleary and D. S. Ewing made a lease to the defendants and under this lease the directors also placed all stock with the First National bank to be delivered according to the terms of the accepted agreement.

This agreement, it is now claimed, has not been fulfilled in that the lease did not sink new wells before June 1, 1913, did not keep two rigs operating and did not turn over one-third of the oil product on the purchase price. The plaintiff company also charges that the lessees are about to remove improvements on the leased property.

## A Typical Wonder Showing

# Magnificent New Furs

The Largest and Finest Assortments In the Entire Valley To Choose From

In connection with our former announcements of surpassing assortments of women's wearing apparel, mainly concerning suits, dresses, waists and millinery, we are now prepared to announce the largest and most beautiful collection of fine furs ever shown in this valley. A presentation that is probably not excelled by many stores on the entire coast.

Our many years of experience, and acquaintanceship with the leading reliable furriers, enable us to present furs that are not only correct in style, but are absolutely dependable in qualities, color (if dyed) and value. "THE WONDER" furs are of the same high standard of excellence that characterizes "WONDER" suits, dresses, waists, millinery and other apparel.

## Luxurious Fur Coats

At Very Moderate Prices

The new fur coats are splendid examples of the prevailing fashions—soft, pliable, not heavy, and beautiful to a remarkable degree. Among the handsome models are—

Soft, brown marmots at \$110.00 and \$125.00.  
Rich, black Hudson seals, \$195.00 to \$355.00.  
Black Russian Pony at \$67.50.  
Sable squirrel at \$175.00.

## Fashionable Sets

\$57.50 To \$195

The new sets, scarves and muffers, are distinctively new and beautiful. "THE WONDER" assortment contains many rare and lovely sets, as well as large varieties in the new styles that are of the inexpensive kind. Among the very fine sets are—

Genuine mole trimmed with ermine at \$195.00.  
Black "Near-seal," finished with "Fitch" in whole animal effect at \$100.00.  
Genuine mink sets at \$195.00.  
Silver kit fox, muff of two animals, scarf of one, priced at \$35.00.  
Red fox in similar style at \$27.50.  
Eastern black fox, very deep fluff muff, double animal scarf, \$125.  
(Also many others at lower prices.)

## Unusual Showing of Handsome Hats

In Velvet Tailor Modes

Velvet hats are the reigning favorites of fashionable Paris—and they are made in a most charming assortment of neat small shapes. The strict tailor modes are mounted with chic velvet loops and bows. "THE WONDER" has prepared a number of pretty ones at \$10. to \$15.

And Flower Trimmed Velvets.

A fashion writer says New York is "Flower mad"—Flowers are in such vogue in Fifth Avenue—They come with fur-crowns, velvet brims finished with flower wreaths—\$15 to \$25.

Special Sale Today!

## Stylish New Boucle Coats

Regular \$22.50 Value A Limited Number To Sell At \$17.95

A new model in fashionable-boucle. Similar in style and effect to the very popular "Sport" coat, though much longer—better adapted to winter wear. Made of excellent wide-wale, rough boucle in cardinal, red or green, solid color and navy faced with cardinal or green. Made with the wide Sport belt of the coat material (loops of the same.) Regular \$22.50 values for \$17.95.

Many Other Styles At \$9.95 Up to \$49.75

Charming and New

## Lace & Net Waists

\$3.98, \$4.98 and Up To \$35

The new waists and blouses of pretty nets and lace in combination with lace are the most attractive ever made. The Parisians are featuring Medici collars and handsome new fichus besides the many other styles of plaited and ruffled frocks. "THE WONDER" has them at 3.98 to \$35.

Elegant New Serge and Silk

## Dresses For Afternoon Wear

Handsome, new models in one-piece styles, finished with wide, folded girdles of silk, deep fancy yokes and small collars of velvet plain or embroidered in colors and in gold and silver. Handsome new blues, browns, garnets and purples offer a wide range of fashionable colors to choose from, prices range from 14.95 to \$28.75.

\$14.95 To \$28.75

## New \$25 Wool Faille Suits \$18.95

Very handsome, plain American tailor modes, of splendid quality worsted Bengaline or faille in navy brown and garnet, finished with mannish bone coat buttons in front and two rows of small velvet covered buttons in back.

**THE Wonder**  
CLOAK & SUIT HOUSE

## Milk Is the Oldest and Most Perfect Food.... Ours Is Purest and Best

From time immemorial the milk of cows has been used as a food for human consumption. It is counted by scientists as the one perfect food, combining as it does in proper form and degree all the elements for the proper nourishment of the body.

But with all its value as a food, if it is the product of an unhealthy cow, or handled in a manner to become contaminated, even if it is the product of a healthy cow, it can and does furnish a breeding place for disease germs to such a degree that health authorities are constantly on the alert in enforcing healthful and sanitary conditions in milk production.

As all our supply comes from our own herd of 325 healthy, well fed and properly cared for cows, and as their product is all handled in a strictly sanitary manner, you can absolutely depend upon the purity, richness and healthfulness of our milk. Try it and be convinced.

## SURVIVALS

At Waterloo, Iowa, on Friday, Senator Cummins is to speak as a Republican, Senator Beveridge as a Progressive, and Secretary Bryan, "by request of the President," as a Democrat. Thus we shall have presented the doctrines of the three parties as represented by three of their most famous leaders. The incongruous thing is, however, that these three men will preach very largely the same doctrine, and will contend, not for the principles of their respective parties as such, but for the right of these parties to embody the Progressive movement to which all three belong.

It is not an accident that these three particular men were chosen. The reason that Progressives were chosen to represent all three parties is because the Progressive doctrine is the only one to which an intelligent audience will listen with respect. The reason the debate will be, not over the principles of the three parties, but over the claims of these three parties to represent the one principle, is that this is the actual issue now before the American people. There are still Americans who are not Progressives, but there are no politicians who seek to win by any other process than that of claiming to be Progressives.

But is it not an absurdity that the Republican doctrine should be represented by Senator Cummins, when it might as well be represented by Senator Penrose or Axtell, who would stand for practically the contrary doctrine? Is it not a misfit that Secretary Bryan should pose as a leader of a party of which Boss Murphy of New York is another and equally powerful leader? Everything for which Secretary Bryan stands is opposed by Senator Murphy, and each of them claims that it is Democracy. Everything for which Senator Penrose stands is opposed by Senator Cummins, and each of them claims that it is Republicanism. No one of these leaders can give any but a historic reason for the continued existence of the parties for which they ostensibly stand. On the issues of a generation now dead the Republican party stood for one definite set of principles and one positive political tendency, and the Democratic party stood for exactly the contrary principles and tendency. Any Republican leader called upon to represent his party would have made for it substantially the same claims that would have been made by any other Republican leader, and the whole rank and file of the Republican party would have avowed the same reasons for belonging to it. The Republican party was then a party, just as the Progressive party now is. But Senator Cummins will avow as his reason for being a Republican that he believes in exactly the doctrines which Senator Beveridge, as a Progressive, will present; and that he thinks it would be possible to depose the present organization of the Republican party and make a Progressive party out of it. Nicholas Murray Butler, for whom the Republican party last year cast its lone "four votes" for vice-president, would avow as his reason for being a Republican a total repudiation of the doctrine of Senator Beveridge, and a hope that the Republican party might be used as a means of preventing the realization of those doctrines. A very similar situation exists in the Democratic party. One half of the Democratic party claims for it that it, better than the Progressive party, can bring about Progressive results. The other half claims for it that it, better than the Republican party, can prevent Progressive results.

Here are five points of view on only two sides of one question. The one thing on which they all agree is that this is the only question and that it has only two sides. Of all these parties the Progressive one is the only one which raises this question as the paramount issue and is united definitely on one side of it. It is, in other words, the only one of the parties which has any present reason for existence. But inasmuch as the majority of mankind have their eyes in the backs of their heads and make their decisions with their memories, the two incongruous parties retain many votes, and in the mid-year by-elections cast more votes than the one party which occupies a clear position on present issues. The illogical positions which Senator Cummins and Secretary Bryan will represent will have many adherents. But the very fact that no man can now define what is meant by a Republican or a Democrat without first specifying what sort of a Republican or Democrat, and that no one needs to ask or answer this question with regard to a Progressive, shows clearly enough that what is left of the Republican and Democratic parties is a survival from a former era into a new era, in which neither of them can find any definite place.

## PUNISHMENT

The release of Julian Hawthorne after serving his term of imprisonment for using the mails to defraud, is a reminder of the fact that some of the old notions that punishment is punishment still survive, and must survive in modern life. It has become almost an orthodox view now to regard crime as a disease, and penal institutions as means for the cure and reform of that disease. We do not yet actually run most of our penitentiaries on this principle, but most of our theorizing about it is

based expressly on this assumption. As to many low-grade criminals it may apply. But what shall we say of the high-grade criminals like Julian Hawthorne, or to take a nearer instance, like Abraham Ruef? Hawthorne has been imprisoned for punishment, and for no other purpose. He committed a wrong and disgraced the inheritance of a great name, and he was locked up as a penalty and made to serve his term. So far as the deterrent effect of conviction was concerned, or the warning to others, it would have been quite as effective to imprison him for one day and deprive him of the right to vote, as to keep him in the penitentiary at hard labor for a year. Yet natural human instinct would have revolted against any such lenient treatment. The instinct of punishment is not eradicated by the pathological theory of crime, and it would have been a violation of the sense of justice to turn a criminal loose merely because he was the sort of a man who would probably commit no more personal crimes. And it is more than likely that this fundamental instinct of human justice comes quite as close to the real right of things as some of our modern theories which eliminate individual right and wrong from the question.

## WHY VOLTURNO LOST

It is an interesting coincidence that the report of Secretary of Commerce Redfield's committee on safety at sea was filed the very day of the disaster to the Volturmo. It is also an interesting consolation to know that this particular was not caused by the lack of any of the precautions recommended by the committee. The precautions recommended are: Search lights; submarine bells; range lights; caution in navigating near ice; more systematic collection by wireless of weather reports at sea; wireless time signals; obligatory adherence to the international steamship lanes; international ice patrol; and the destruction of icebergs. No one of these precautions, it will be seen, could have prevented the Volturmo disaster, and the adherence to several of them is one reason why the destruction of life was not complete. The prompt use of the wireless telegraph and the fact that the fire took place on a crowded ocean lane with many vessels near by was the only reason that there are any survivors of the Volturmo to tell the tale. Nearly half of those who died on the Volturmo were killed on the vessel by the first fire and explosion. This might have happened in a fire and explosion anywhere on land. Nearly all the rest were lost in a vain effort to disembark in a storm too severe for the launching of boats. The fire itself was precisely like that which might occur in any fireproof building. The steamboat was itself of steel and fireproof. Fire started in the cargo and spread through the cargo and finally reached the coal bunkers. A steel vessel, like a steel building, is no more fireproof than a stove is. You can always build a fire in it if there is inflammable material there, and if it is occupied there is always inflammable material.

The lesson of this experience may teach even additional precautions for better fire control and for more safe launching of boats in rough weather. But at least it is consoling to know that the disaster was not preventable by any of the precautions suggested by previous experiences, and that most of the lives on the vessel were saved by virtue of precautions which a few years ago were unknown.

## IMBECILE CRIME

A new law is about to go into effect in Massachusetts, whose promoters are sanguine enough to expect will almost abolish crime and penitentiaries in that state. It is a law for the permanent segregation and public control of criminals and imbeciles. According to the Massachusetts sociologists, the majority of criminals and nearly all vagrants are feeble-minded persons who cannot respond to the ordinary penal methods. An insane person is one who once had a mind and has lost it. Such persons, unless there has been an absolute physical destruction of brain tissue, are frequently curable, and when cured may become as normal as before. The imbecile is a person who never had a normal mind and who cannot possibly acquire one. Most imbeciles are likely to become criminals or vagrants to some degree, and most chronic criminals and vagrants are imbeciles. If two imbeciles marry, all their children are certain also to be mental defectives. If an imbecile marries a normal person, half their children, on an average, will be defectives. And even the normal children are extremely likely to have defective offspring. The segregation, then of these mental defectives, will, in the first place, largely depopulate the penitentiaries, and end the crime of the present generation, and will, in the second place, prevent the propagation into future generations of the principal sources of crime and degeneracy. The promoters of this law in Massachusetts are not visionary enthusiasts, but sober and independent students of the problem. They insist that they have found the solution of it, and that the cost to the state of handling it will be only a small fraction of the money and executive effort now devoted to the handling of crime and criminals. It is an interesting experiment, which at the least will do much good, and at the best may become one of the most important discoveries in the history of human organization.

## "RITUAL MURDER" PROTEST PLANNED

## The WORLD'S MYSTERIES

## MYSTERIES of ANTIQUITY

DID ROGER BACON DIG HIS GRAVE?

So many extraordinary stories are told of Roger Bacon, the English monk, that it is hard to believe any of them, although it must be admitted that he was an exceptional man. The unfortunate part about many of the stories is that they have been taken from the "Famous Histories of Roger Bacon" and have been accepted as true, and while this book no doubt chronicles many of his achievements, the author has stretched his imagination in order to make his subject seem just as odd as possible.

Toward the end of this book the writer

## Operations

By GEORGE FITCH, Author of "At Good Old Siwash."

An operation is the process of making improvements on the human form. When the automobile drops and declines to run, the owner thereof takes it to the repair man, who dissects it with a monkey wrench and pries it with a screwdriver, and finally, after a number of other fittings in heaps about the shop while he bangs away on the afflicted part with a cold chisel. Likewise when the human body declines to work smoothly and effectively the owner takes it into the back shop, and a pair of surgeons in white clothes and masks wheel in a wagon load of sharp tools and begin to make repairs. By the time they have worked an hour the patient is so thoroughly scattered that confusion sometimes results and he departs wearing a pair of steel forceps or a small hand saw in place of his appendix.

This mistake would not be made if surgeons would remove the parts carefully before removing them. Years ago surgery was very crude, and consisted of sawing off legs and arms. Now, however, surgeons roam through the human frame with great dexterity, replacing bones, re-arranging the alimentary canal, installing new stomachs and spilling backbones. All over the world, skillful surgeons are plying out patients with bits of dogs, rabbits and cows, and sending them forth well and strong walking men, girls and composite members of the animal and mineral kingdoms.

Operations are brief and hurried affairs, but are expensive for all that. There are few places where a man can spend as much money in an hour as on the operating table. Many a man has lain down in a clean nightgown on a marble slab at 10:35 a. m.,

caused the people to look upon him as a sorcerer. It was this same marvelous intelligence and foresight that brought to him all his trouble and kept him confined in jail a prisoner for at least a quarter of his life.

The exact date of Roger Bacon's birth is uncertain, but it is supposed that he was born about the year 1216, and that the place of his nativity was Somersetshire. Although at birth his parents were rich, financial difficulties overtook him (Continued on Page 5.)

ter informs us that Roger Bacon broke his magic glass, turned his books of the "black art" and devoted himself to theological studies, and lived in a cell which he had excavated in a church wall. "Thus lived he," he says, "two years in that cell, never coming forth; his meat and drink he received in at a window, and at that window he did discourse with those who came to him. His grave he dug with his own nails, and was laid there when he died. He lived the most part of his life a magician, and died a true penitent sinner, and an anchorite."

It is hard to accept the statement as true of his living two years in a cell, never coming forth, and that he dug his grave with his own "nails." Roger Bacon was too wise a philosopher and too noble of character to have done the latter, as well as many other things which have been attributed to him.

The world has never had such a dreamer as Roger Bacon, and when we consider that he lived during the middle half of the thirteenth century, and that even then in his cell-study he dreamed of submarine boats, of flying machines, automobiles, telescopes and microscopes, safety lamps, telephones and phonographs, it is easy to imagine what a master mind he possessed and how far he was in advance of his times.

This was at a time when there was universal ignorance, and when superstition reigned the world like a big, cold nightmare. Naturally his ideas

"Skillful surgeons are plying out patients with bits of dogs, rabbits and cows."

caused the people to look upon him as a sorcerer. It was this same marvelous intelligence and foresight that brought to him all his trouble and kept him confined in jail a prisoner for at least a quarter of his life.

Mrs. Sarah Machen has made court application in the estate of the late W. W. Machen that the home lot in Griffith's Villa addition be set apart to her. There is a homestead filing on the property which is appraised at \$500.

Suit was brought yesterday by W. F. Henton against R. F. Barrett for the recovery of a herd of cattle, or \$1600 as their value with \$150 damages for their withholding. The cattle is part of the W. F. Bradley herd and Henton says that Barrett lawfully took possession last September.

The Scandinavian Free Mission church of Kingsburg petitioned the Superior Court yesterday to mortgage block Z in Kingsburg for \$3600 for two years at 7 1/2 per cent interest. The congregation is erecting a \$7000 house of worship, upon which when completed it will be owing \$3800 on the cost of construction and furnishing.

Under the "New-Old" management the Hughes Hotel is rapidly being re-decorated and furnished anew.

Because of the absence from town of three of the five members, no quorum gathered last evening for the postponed meeting at the city hall.

Anna Harrison yesterday asked that the divorce suit brought against her here by W. P. Harrison be transferred to Stockton, she claiming that city as her residence.

The members of the Alert Circle of the First Christian church have been requested to meet promptly at 2:30 Friday afternoon at the home of Mrs. H. W. Daly at 1212 J street.

Suit was brought yesterday by L. A. Haegeing to renew a judgment for \$607.50 rendered on October 15, 1904, against W. M. and L. G. Harrell, W. M. Tucker, B. M. Hogue and J. B. Rader.

Because of the absence of a witness, further trial was postponed yesterday by Judge Austin in the case of Mrs. Ellen Hopper suing D. Pavale on a \$400 note growing out of a business transaction.

## LOCAL BREVITIES

Mrs. Mary Pauline Schuer, aged 23 years, died yesterday. Her body was taken in charge by Stephens & Bean and funeral arrangements will be made later.

George Kissling and his wife were taken before City Justice Graham yesterday, reprimanded for not sending their children to school, and were released on their own recognizance.

Frances Wilson brought suit yesterday against A. K. Wilson for maintenance. Brother & Aynsworth are her attorneys. Also M. Mahan and Frederick E. Mahan for divorce on the ground of failure to provide. Gallaher and Aten bring the suit for her.

## PERSONAL MENTION

Mrs. W. R. Robertson left for Louisville, Ky., last night to visit her mother who is reported to be seriously ill. She traveled over the Southern Pacific.

## IN THE LODGE ROOM

**REBEKAH.**  
A special meeting of the Fresno Rebekah lodge No. 58 degree staff was held last night in the O. O. F. hall for final practice before the arrival of President Janie Bonnell, who will spend Saturday in Fresno on an inspection tour. Following are the staff members of the local lodge:  
Mendame, A. Halloway, H. L. West, C. E. White, A. J. Thibault, Eugene Couey, A. L. Green, Grace Edgar, Anna Danks, Stella Howard, A. L. Shumson, Nellie Walt, H. Ahrensberg, W. W. Watson, Nellie Button, Alice Elam, F. A. Wright, D. Cherry, Berg, Ona Jacobs, Mary Jones, J. Thibault, Rebekah Gross, Misses Bell Whitney, Ella Scott, Mary Webber, Clyde Elam, Mr. Ed. Bluffard, Muselman — Mrs. Lohhouse. Drill Masters—J. M. Smith and A. F. Euston.

**FRATERNAL BROTHERHOOD.**  
One was initiated and one application received at the meeting of Italian City lodge No. 292 last night. Anna H. Clark was taken into the organization. Chairman Metcalf of the Halloway social reported progress. The social dance of the order will be started October 16.

**HURON SCHOOL HOUSE**  
TO GO TO STANLEY

As a result of a conference between Superintendent Lindsay and the trustees, the new Stanley school district will be provided with a school house by the removal of the dilapidated one in Huron district which having lapsed eight or nine years ago, was later merged with the Coalinga district. This decision is dependent on whether the old dilapidated building is inhabitable. If it is, Stanley district will when it realizes on its recently turned down \$5000, 3 per cent bond issue, have saved the cost of erecting a new school house. It also will save the removal expense from Huron and have that much more money for general school purposes.

**CANTUA SCHOOL**  
HAS FOUR PUPILS

The Cantua district located on the West Side, fifty-five miles from Fresno, and eighteen miles from Tranquillity, is in danger of lapse because it cannot show an average attendance of over five pupils. The school is being maintained at a cost of \$70 to \$80 a month with four enrolled pupils—three girls and a boy.

Named after the Chester family, with Miss Mollie Griffin who taught last year in the Perrin district as the teacher. Last year Cantua had an enrollment of twelve to fourteen. It is hoped to escape lapsing with the coming in a week or so of two families, one with a half dozen and the other with three or four children, the family with the larger number moving back on the plains from Mendota.

**DID ROGER BACON**  
DIG HIS GRAVE?

(Continued From Page 4.)  
them and early in life Roger was compelled to feel the pangs of dire poverty. This did not prevent him from taking a course at Oxford and later at the University of Paris. It was the deep thought that he gave to his studies, and the deductions that he was able to make therefrom that made him the great thinker he was.

While many of his advanced thoughts were of no especial use to him, owing mainly to the religious zeal that dominated him, many of his inventive ideas have left their imprint on the balance of the evidence is in favor of his having invented gunpowder, and he was father of the calendar as afterwards accepted. It was Bacon who inaugurated the method known as "induction," to which nearly all of the achievements of the present day are due. He was a pioneer in sanitation and in chemistry, and it is even said, with much appearance of justice, that he investigated the power of steam.

"Sad to think," exclaims one of our foremost educators, "of what this great man might have given to the world had ecclesiasticism allowed the gift. He held the keys of treasures which would have freed mankind from ages of error and misery."

Such was Roger Bacon, and such his contributions to the world. Because he was away ahead of his time, he was misunderstood and persecuted. His writings were condemned and he was cast into prison. On his deathbed he uttered the melancholy complaint: "I repent now that I have given myself so much trouble for the love of science."

Then, as if taking back the seeming affront to his daring ambition, the old man cried out: "It is on account of the ignorance of those with whom I have had to deal that I have not been able to accomplish more."

It is not possible that with all this wisdom to his credit, Roger Bacon could have possessed the many eccentricities that have been attributed to him, especially the digging of his grave with his own nails, and especially in view of the fact that he was buried at Oxford, the institution where he was educated, but which had discarded him because he was so far in advance of his times in his thinking.

Tomorrow—Who Was James Thaurator?

**SPECIAL NOTICE SPECIAL NOTICE**  
All machinists and apprentices, automobile mechanics and apprentices are cordially invited to attend upon meeting of I. A. M.

J. D. Dale, state organizer of California, speaker of the evening.

All members are requested and non-members are cordially invited to attend.

Money Saved by Making Your Cough Syrup at Home

Take But a Few Moments, and Your Cough is a Breeze.

Cough medicines, as a rule, contain a large quantity of plain syrup. If you take one pint of granulated sugar, add 1/2 pint of water and boil about 6 minutes, you have as good syrup as money could buy.

If you will then put 2 1/2 ounces of Pinex (fifty cents, worth) in a pint bottle and mix it up with the Sugar Syrup, you will have as much cough syrup as you could buy ready made for \$2.50. Take a teaspoonful every one, two or three hours. It keeps perfectly.

You will find it one of the best cough syrups you ever used—even in whooping cough. You can feel it take hold—usually conquers an ordinary cough in 24 hours. It is just laxative enough, has a good tonic effect, and the taste is pleasant.

It is a splendid remedy, too, for whooping cough, spasmodic croup, hoarseness and bronchial asthma.

Pinex is a most valuable concentrated compound of Norway white pine extract, rich in quinine and other healing pine elements. No other preparation will work in this formula.

This plan for making cough remedy with Pinex and Sugar Syrup is now used in more homes than any other remedy remedy. The plan has often been imitated but never successfully.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind. —Advertisement.

WHAT YOU HAVE BEEN LOOKING FOR  
Meritol White Liniment is a preparation that gives universal satisfaction in every instance where a pain killer and healer is needed. We do not believe you could get a better liniment at any price. Patterson Block Pharmacy, Exclusive Agents. —Advertisement.

# SOCIETY

One of the interesting innovations of the present social season is the formation of a golf club by a number of enthusiastic feminine wielders of golf clubs, who are associated with the Sunnyside Country Club. From all accounts, the bridge table is to be deserted this winter in favor of the golf links, and once each week, the lovers of the game are to convene at the club house to enjoy tiffin together, and then spend the afternoon on the links. As a further incentive for keeping in trim, some trophies are to be put up later. Today witnesses the first assemblage of the golfers who will motor out and make plans for the season's games over the luncheon table.

Among those included in the list are: Mesdames Thomas W. Patterson, F. M. Romlin, C. H. Hill, E. E. Nares, E. H. Short, Mr. and Mrs. F. E. Nares, Charles Bonner, George C. Roeding, Misses Edith Cory, Jenny Wishon, Ethel Shaver.

Mr. and Mrs. Arthur W. Goodfellow left yesterday for San Francisco, where they are to spend the winter, making the Hotel St. Francis their headquarters.

Mrs. F. M. Romlin entertained very delightfully at an informal dinner last night at her home on K street. Pink and lavender cosmos ornamented the table prettily, and dainty place cards, scheduled the following names: Mr. and Mrs. L. A. Nares, Mr. and Mrs. Thomas W. Patterson, Mr. and Mrs. Frank H. Short, Mr. and Mrs. E. E. Nares, Mr. and Mrs. W. A. Sutherland, Mr. and Mrs. Romlin, Miss Eugenia Miller.

Miss Ruth Logan is down from Stockton for a week's visit with friends in town.

Mrs. W. W. Craycroft was the hostess at the meeting of the Wednesday Afternoon Card Club yesterday afternoon.

noon at her home on K street. Miss Constance Beveridge played for an absent member and was fortunate in holding high score at the conclusion of the games winning the souvenir for the afternoon.

The club will be entertained next Wednesday by Mrs. W. J. Cleary at her home on J street.

Henry Butters of Piedmont, is spending a few days in Fresno, stopping at the Hotel Fresno.

Miss Helen Jackson of San Francisco, is the guest of Mrs. H. Wingate Lake at her apartments in the Fresno hotel.

Miss Gladys Blumenberg has returned to her home in San Francisco, after a delightful week's sojourn as the house guest of Mr. and Mrs. Alfred H. Becker.

The Thursday Night Class will convene this evening at 7 o'clock to continue the study of Hamlet under the tutelage of Mrs. P. Miller. The meeting is to be held earlier than usual, in order that some of the class members may later attend the Normal school faculty party.

The Wednesday Club held its first study session at the home of Mrs. E. Abernethy on K street. Mrs. L. J. Wilson as leader, devoted the afternoon to the exposition and reading of the new drama, "The Americans" by Edward Shoonmaker. The play is powerfully written, treating of the great dramatic problems with its perplexities and tragic intensities. Mrs. Wilson's dramatic art lent realism that held her audience in deepest attention during the recital.

Next week the club will have Prof. C. C. Starr address them on a subject yet to be announced. Mrs. W. J. Starr will be the hostess at her home on J street.

Mrs. Anna Newman entertained very delightfully at luncheon yesterday at her home on Nelson avenue, complimenting her guests, Mrs. Samuel Weinbaum of San Francisco, who is down for a several weeks' sojourn in Fresno. A charming arrangement of spicy pink carnations graced the center of the festal board around which were grouped Mrs. Frank Helm, Mrs. Thoma, Mrs. Arnold, Miss Anna, Mrs. Eugene Mollen, Mrs. Brown of Sedalia, Missouri, Mrs. Walter Shoonmaker, Mrs. Truman G. Hart.

The Leisure Hour Club spent yesterday afternoon at the home of Mrs. J. C. Cooper on M and Stanislaus street. Mrs. W. J. Miller presiding, very interesting fashion in the study of the Shakespearean Sonnets. On next Wednesday, Mrs. Cooper will lead in the review of the Sonnets of the Portuguese, by Browning, the meeting to be held at the home of Mrs. Charles Smith on L street.

The Parlor Lecture Club has an interesting treat in store this afternoon, when Rev. Matt S. Hughes, a prominent Methodist minister of the Pacific coast, will address them on "The Evolution of Woman." Special musical numbers are to be given by Mrs. E. Towner who makes her debut before the club on this occasion.

The Normal School faculty will entertain the students this evening at an informal party to be given in the assembly room of the Normal school building. The graduating class of last term of the High school are also to be guests on this occasion, and Miss Effie Timmons will make the presentation speech accompanying the gift of a handsome picture, which will be received by the class representative, Miss Orva Peterson, president of the Normal school student body.

The faculty includes C. L. McNamee, Miss Maude Schaeffer, C. Phelps, Miss Edna Howell, G. H. Huntington, Mr. Cunningham, Mrs. Edna Orr James, Miss Love, Miss Ingham, Miss Marlan Goy, Dr. Edward, Mr. Givens, and Mr. Wahlberg.

The Epworth League of Grace M. E. church, Batavia and Ingo streets, will give a social at the church Friday evening.

Louis Hansen celebrated his twelfth birthday yesterday afternoon with a merry little party at his home on L street. Games were played, for which prizes were awarded to Dorothy Perkins and Wesley Oliver, and later refreshments were served, a dainty color scheme of pink and white being observed, with roses as the decorative materials in the refreshment room.

Among those in the party were: Laurin Burns, Lyle Madison, Otto Schaeffer, George Schroeder, Dorothy Perkins, Thomas Perkins, Wesley Oliver, Albert Johnson, Louis Hansen.

The Eschscholtz Embroidery Club enjoyed its weekly hour of fancy work yesterday at the home of Mrs. E. T.

York. Smilax and pink roses made the setting festive for the occasion and at a late hour in the afternoon, tempting refreshments were served. Mrs. Louis Carson was a guest for the afternoon.

Mrs. Bert Cardwell will entertain the club two weeks hence at her home on U street.

A full rehearsal for the Missionary Pageant, which will be presented on November 15, will be held this afternoon and evening. The cast has been already chosen with the exception of the chorus, and the various countries are to rehearse as follows:

India: (child widows), Alice Elder, Lottie Bidermann, Mabel Meacham, Ardella Nelson, Georgia Knight, Edith Weddle, (others) Mildred Hestit, Anna McCreary, Zora Perry, Gladys Riva.

South America: Eltha McIntyre, Amy Maitrean, Josephine Le Due, Florence Lathrop, Lillian Peterson, Lottie Elder, Amelia Molken, Eva Perry, Josephine Brooks, Lillian Atankulst, Lillian Palmer, Marie Witter, Miss Savory, Bernice Billingsley, Mary Little, Marie Gilligan.

Japan: Leola Shaver, Ruth Jones, Pamela Heston, Anita Hooper, Irene Crawford, Lillian Palmer, Anna Wingar, Margaret Ellithorpe, Irene Harner, Genevieve Knight, Virginia Garner, Lillian Hooper, Almada Gray, Rachel Marley, Doris Parks, Clara Guloway.

China: Bessie Marshall, Lillian Elder, Amy Sorter, Gladys Crossley, Rachel Davis, Janet Davis, Josephine Win, Vera Nowell, Irene Crawford, Norma Buckalew, Lottie Cartwright, Velma Smith, Vera Morgan, May Storn, Beth Harvey, Nettie Scott, Fay Goddard.

An impressive prologue and epilogue will be read by Miss Christina Ellithorpe.

Cosmopolitanism is part of the creed of the Y. W. C. A., and the latest innovation in the activities of the local association is the establishment of a cooking school for Japanese women, the temporary school to be the home of the Japanese minister, Rev. Mr. Knudt, E and K streets, on Friday afternoon at half past 2. The school are already enrolled, and the list will doubtless be swelled later in the season. Miss Ruby Grator, the general secretary, is to oversee the school. She is also to direct a class in English for Swedish women in the Association building at half past three this afternoon, and coming the same day will be a cooking school for Chinese women, which will be organized to conform to the precedent established in the Japanese school.

A temporary branch home board, composed of Y. W. C. A. members will serve alternately until a regular executive board can be secured. Those actively interested in the work are Mrs. Herbert Gundelinger, Mrs. Jenny Wishon, Mrs. Wingar, Miss Dora Ellis, Miss Epstein, Miss Wilson, and Miss Peterson.

Mr. and Mrs. William G. Cochran are staying at Del Monte for a few days.

The Woman's Auxiliary of the First Baptist church met Tuesday afternoon for their monthly business and social meeting. They had a very interesting and profitable session, after which was the business and social hour. A large number of the members were present and all enjoyed themselves. A number brought their gifts for the box, which is to be sent Miss Stein of China, for Christmas.

Mr. and Mrs. Aloha Chance leave this morning for Los Angeles, where they will spend the winter. Mr. and Mrs. Chance have been for the last few weeks the guests of Mrs. E. Towner of Fresno, coming here from San Francisco.

Miss Lydia Peterson of Oleander, who is visiting in the Easton Parish Lutheran Church Tuesday at 3:30 o'clock. The bride wore a beautiful gown of white satin; the bridesmaids wore the Misses Edna Peterson and Carrie Nelson. The best men were Messrs. Lute Peterson and Roy Nelson. The church was handsomely decorated by the church committee and the friends of the couple. The ceremony was performed by the pastor, Rev. A. L. Hanson, in the presence of many relatives and friends.

The groom is the oldest son of Mr. and Mrs. Amberg Peterson of Oleander, and the bride is the daughter of Mr. and Mrs. Leonard Peterson of Oleander. After the ceremony at the church a reception was given at the home of the bride. Mr. and Mrs. Wallace Peterson received many gifts.

Miss Maud Hicks was married last night to Roy J. Turner at the home of her parents, 3615 White avenue. Rev. John Conley of the First Baptist Church. The couple are from Hanford, but will make their home in Sacramento.

Mrs. Hector Burness returned yesterday after spending the summer in Berkeley, making the Carlton hotel her headquarters. She left her daughter, Anita and sons, Hector and Billy, at school at San Rafael.

The Sunshine Club will meet this afternoon at 2 o'clock with Matilda Ingemol, 1125 Blackstone. Visitors are welcome.

## Demonstration of Human Hair Goods

Miss Wray has been meeting with great success. Her expert services are fully appreciated—few demonstrations have afforded so much satisfaction to the public, or such low prices as are being quoted below.

<b>95c Switches</b> Are 20 inches long, soft and wavy, Human Hair.	<b>\$2.95 Switches</b> Are 21 inches long; a beautiful quality for this price.	<b>\$4.95 Switches</b> Are 28 inches long; full, soft and wavy switches.
<b>\$1.95 Switches</b> Are 23 inches long, soft and wavy, all regular shades.	<b>\$3.95 Switches</b> Are 26 inches long, a regular switch.	<b>\$5.95 Switches</b> Are 30 inches long; you might pay \$10 for this switch some places.

## ROYAL COUPLE ARE WEDDED IN LONDON

LONDON, Oct. 15.—Prince Arthur of Connaught, son of the Duke of Connaught, governor-general of Canada, was married today to Princess Alexandra Victoria, Duchess of Fife, oldest daughter of the widowed Princess Royal Louise. The ceremony took place in the ancient chapel of St. James palace, where both were baptized.

A futile attempt to reach King George and Queen Mary was made by a militant suffragette, Miss Margaret Sterling, when she attempted to enter their way to the wedding of Prince Arthur of Connaught and the Duchess of Fife. The young woman broke through the line of police, waving a petition, but she was arrested.

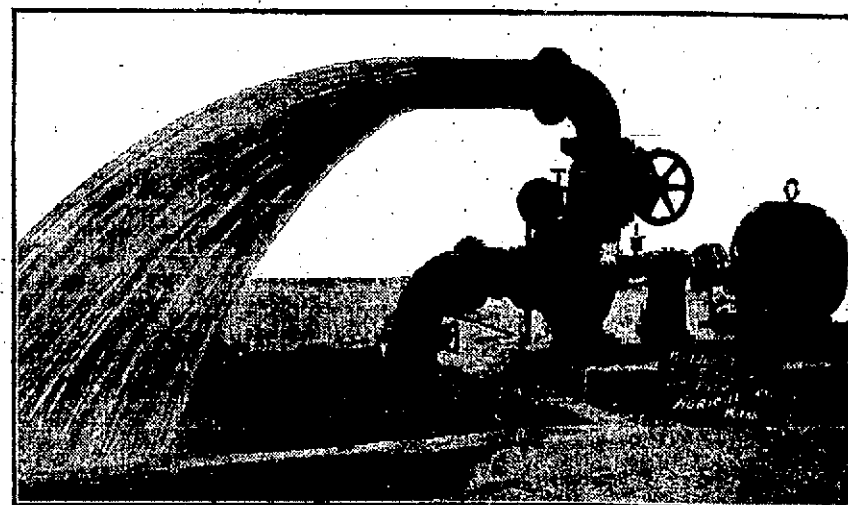

## REMOVAL FEE LAW IS TO BE TESTED

LOS ANGELES, Cal., Oct. 15.—Arguments supporting and opposing the validity of the law passed in 1878 requiring the payment of a fee of \$10 for every body exhumed within the state for transportation in foreign country, will be heard by Superior Judge Morrell November 10. The question as to the constitutionality of the act was raised in a petition for a writ of mandate presented to Presiding Judge Paul J. McCormick, through Albert Waldstein, counsel for the Chinese Six Companies of San Francisco.

It is the custom of the Chinese to transport their dead to China at stipulated times, and they will have thousands of dollars in the event of a favorable ruling by the court.

## Electrical Pumping Plants

This cut shows one of our six-inch pumps running at the Fair Grounds under thirty foot total head, using eleven Kilowatts, and throwing one thousand gallons per minute.

## Now Is the Time To Put In That Plant For Next Season

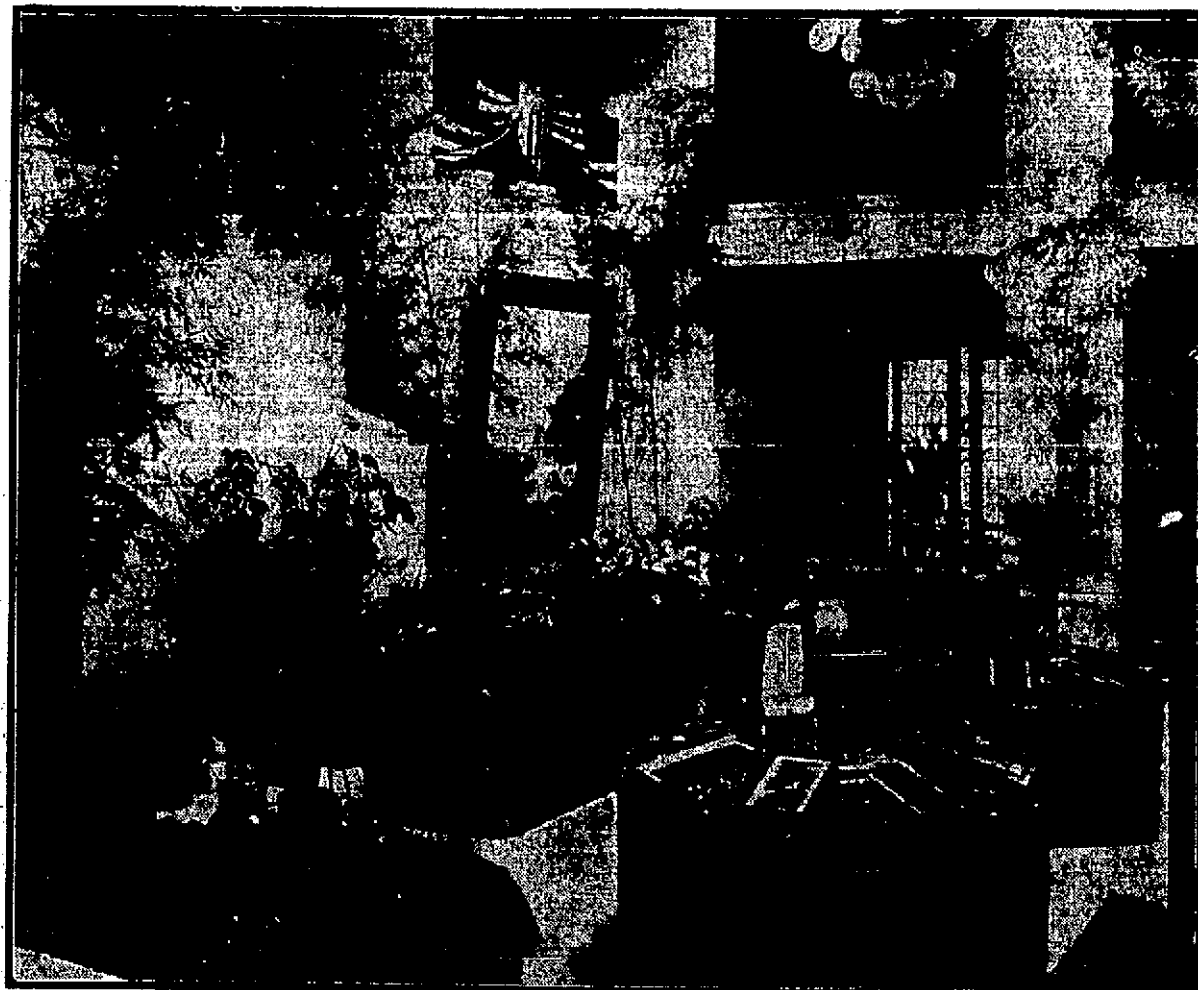

If you are too far away for electrical power, come in and let us show you that Simplicity engine with oscillating magneto, that starts by rocking the engine against the compression. So simple a child can start and run it. We have a complete line of flanged fittings and casing in stock.

## Fresno Agricultural Works FRESNO

# Nurserymen Open State Convention Here

## DELEGATES HERE; EXHIBITS PLACED; THE PROGRAM

View of one corner of the lobby of the Fresno Hotel, showing part of the exhibit displayed by the California Association of Nurserymen for their convention which will be held in this city during the remainder of this week.

The California Association of Nurserymen will open its third annual convention at 9 o'clock this morning in the Fresno hotel for a three day public session, with members from every section of the state present, representing all the industries connected with the horticultural business. The President F. H. Wilson of Dinuba will preside. All the sessions will be open to the public.

The principal subjects which will come up for discussion today are Rural Credits Under California Conditions by Col. Harry Weinstein of San Francisco; Foundations of Agricultural Credits in Europe, by E. J. Wickson of the University of California; The Work of the New Viticulture Commission, by Wiley M. Giffen; The

Fruit Tree Grower and the Fruit Tree Planter, by W. F. Chandler, and The Grape Raisin, Table and Wine, by R. Schmidt of the United States Department of Agriculture.

These subjects will be dealt with at the afternoon session, which begins at 1:15 o'clock. The morning will be given over mainly to routine business of the part of the members.

The majority of the exhibits have been placed in the west end of the main lobby of the Fresno hotel, where, being set off by the decorations, they make an attractive display of green and dried fruits, potted plants of rare varieties, cut and potted flowers of valuable species, and pottery.

These displays have been provided by the various local and valley nurseries and companies from both the northern and the southern parts of the state.

**DELEGATES ARRIVE**

A large delegation arrived from the north last night and they, together with the members from the valley, made the hotel lobby look as though the association was already in convention.

Large delegations from both the north and the south are due to arrive early this morning so that they will be here in plenty of time for the opening of the three day session.

Secretary Krueger says that at least twenty-five delegates will be here from Los Angeles alone on the morning train.

Among those who arrived yesterday to attend the convention are the following: E. J. Wickson of Berkeley, Mr. and Mrs. J. B. Pilkington of Portland, Ore. (Pilkington is president of the American Association of Nurserymen); E. Wightman of Chico, B. J. Harries of Roy, Utah, D. W. Coolidge of Pasadena, F. C. Wilson of Sunnyvale, L. Morse of San Francisco, Mr. and Mrs. John Wallace of Oakland, Max J. Crow of Sacramento and Dr. A. J. Cook, (state horticulturist) of Sacramento.

**EXHIBITS ON DISPLAY**

Among the exhibits on display in the lobby of the Fresno hotel are the following:

Potted and baid plants, C. C. Morse & Co., of San Francisco.  
Empire grapes, F. C. Wilson of Dinuba.  
Burial, Ames Harris Nevill Co. of San Francisco.  
Pottery, J. A. Bauer Pottery Co. of Los Angeles.  
Commercial fertilizers, Western Meat Co., of Fresno.  
Florist's display, Mrs. Shimmom of Fresno.  
Rhubarb, J. B. Wagner of Pasadena.  
Citrus fruits, W. R. Wood of Los Angeles.  
Tropical fruits, D. W. Coolidge of Pasadena.  
Flax and olives, Roelling Olive Co. of Fresno.  
Processed fruits and raisins, Fresno County Chamber of Commerce.  
Decorations by all the local nurserymen.

**Photographic Supplies**  
Developing and Printing.

If you develop and print your own negatives, we can supply you with the very newest and up-to-date apparatus if you have your printing and developing done, no one can give you more satisfactory work than we can.

We have our own finishing department and guarantee all our work which must be satisfactory before you accept it.

We want your continued, permanent patronage, not a trial patronage only.

Free instructions given in the use of Kodaks and supplies.

### WATER USERS ARE TO CONFER TODAY

Will Discuss Set of Rules and Regulations for Irrigating Season

Delegates from the different canal organizations under the system of the Fresno Canal and Irrigation company will meet at the chamber of commerce this afternoon to confer regarding rules and regulations that are to be adopted for the irrigating season.

The officers of the Fresno Canal and Irrigation company have prepared a set of rules and regulations which will be offered to the delegates. They make the statement, however, that the drafting of these rules does not signify that they are to be forced on the delegates in any way, but that they were drawn up simply to have something tangible upon which the conference might work.

Water users in the various canal districts have held meetings in the past two or three days to select delegates to this meeting and also to the meeting of water users under the Consolidated Canal company's system. Delegates from the various canal organizations under this system will meet at the chamber of commerce tomorrow afternoon.

### SUES IRRIGATION CO., ALLEGING NO WATER

Sycamore Rancher Demands Damages for Loss of Season's Crop

Because not furnished with water for irrigation, P. H. Shirley, who owns three farm lots in the Sycamore Ranch tract, brought suit yesterday against the Fresno Canal and Irrigation company, claiming damages for loss of this season's labor and output.

The ranch tract is held under a water right of the canal company with the Occidental Land and Improvement company to furnish water.

Relying upon the promise to be furnished water, Shirley says he planted vines and figs and prepared and checked twenty acres for alfalfa, but that no water was provided, despite repeated demands. The vines and trees died and he could not sow alfalfa.

All his labor, he says, went for naught, and before he can again sow he will again have to cultivate, plow, harrow and check. He figures his total loss and cost at \$402.

### BARBER WEDS FOR FOURTH TIME AT 51; BRIDE IS 22

George Nidaver, who conducts a barber supply house on I street, was united in marriage for the fourth time yesterday when he wed Miss Marie Repose, aged 22. He lost no time, for only yesterday was the final decree entered in the divorce obtained by his third wife. The ceremony was performed by City Justice Graham, with Miss Johnston, his stenographer, as the witness. Nidaver is 51 years of age.

### SET DAY TO PROMOTE RELIGIOUS EDUCATION

A special service with an address will be held in St. James Pro-Cathedral on Sunday, October 13, St. Luke's Day, at 10 a. m. This day has been appointed by the church as a day of intercession for all religious education. All interested in this great work are cordially invited to attend. Religious education is spoken of by Bishop Lawrence of the diocese in the opening sermon at the general convention as of primary importance in this country.

### POLICEMAN ROBBED

OAKLAND, Cal., Oct. 15.—Two highwaymen, consistent in their contempt of the law, held up Policeman James Gunner early this morning in East Oakland, and robbed him of his revolver and his whistle. They overtook \$60 in cash in an inner pocket.

### The Lockwood System of Dentistry Without Pain

LECTURE No. 82

**My System of Dentistry Without Pain**

Appeals to people who are seeking the services of a dentist and desire conscientious, careful work, executed in a skillful manner. The very large practice I have established in Fresno is due entirely to my being able to do the ordinary, every-day operations in dentistry PAINLESSLY, and to rigidly following a principle of never permitting any but good, conscientious work to leave my office.

My experience is such that I do not find it necessary to experiment or do work that is of a doubtful nature. Any advice I give is always conscientious. The patient's best interests being considered before anything else.

My prices are moderate.

**A. T. Lockwood, D.D.S.**

Graduate New York College of Dentistry.  
Office Over Hollands, 2044 Mariposa St. Phone 342

**Hermann the Great**  
Special Suits  
\$25.00

A modest price indeed, Sir, for a Hermann Suit! But we'll give you a quality and smartness at this figure which will surely make you "sit up."

We've been years bringing our business to a point where we can produce Hermann Quality Clothes at this particular price.

Now we're ready to positively demonstrate that style, quality, workmanship and character can be put into men's clothes at Twenty-five Dollars.

Exclusive fabrics in this line, as in all others we offer.

**J. C. Dvorak**  
The House Painter  
1831 Fresno Street  
Phone 917

when before the highway commission with the other two special committees to secure the highway widening. The cost of the highway with the added widening is estimated for the county at not to exceed \$175,000, and the sooner the bond issue is sold the sooner according to the promise the completion of the highway. It is not at all unlikely that Fresno's supervisors may take up the bonds for the entire cost of the highway through the southern half of the county.

The finances of the county is reported on the first of this month are more than sufficient to make up the purchase of this bond issue without need of having to draw on the \$214,500 out on call loan at 2 per cent. In the treasury on the opening day this month were balances as follows:

City funds ..... \$100,223.43  
County funds ..... \$320,219.53  
Total ..... \$420,442.96

In the \$100,223.43 of county funds were two items whose total is more than sufficient to buy the entire bond issue without making call on the money out on loan. The items were these:

U. S. gold ..... \$172,855  
Certificates of deposit ..... 110,000  
Total cash ..... \$282,855

Settling aside in the treasury gold or certificates of deposit to offset the city fund deficit, there is yet a cash balance of \$212,855 available for the county's bond purchase and drawing no interest now. This total was increased yesterday by \$51,814. Seventy-five per cent of the cash balance placed in the treasury after the cashing of the Union National bank of the Washburn at the World's draft on the purchase of the Sanger Union high school bonds. There is so much cash available in the treasury at this time, say nothing of the daily coming in tax money collections, that it is all but determined for the county to buy up the entire \$175,000 state highway construction bond issue for Fresno.

Incidentally, it is learned that the special committee had no easy task to secure from the commission the concession of a departure from its plan in widening the Fresno-Fowler division roadway. The request was made by the commission that the people of the county provide the money for the additional cost of the widened roadway. Supervisor Jorgensen could not agree to this condition in a cash payment by the property owners, because as he contended their land was not worth so much yet as to warrant such additional high tax. The committee stood fast on its promise that for the widening privilege the county was doing very well to undertake the purchase of \$125,000 of the bonds, with the possibility of taking up the entire issue. The only departure that the commission has authorized in the state highway which is in Santa Clara county. There the width was made forty feet, but twenty additional was arranged for by the county and the other twenty by the property owners on both sides of the highway roadway.

That there was an excess of travel on the Fresno-Fowler division was not only demonstrated by the committee's tally figures but these were fortified by tallies made by the commission. Some of the figures were even larger than those of the committee, so that on the score of excessive travel and there was nothing on which to pin an argument.

## CLEVELAND MARKET FOR FRESNO GRAPES

Ohio Farmer Says Worms  
Have Destroyed Wine  
Grapes In East

That there is a good market in and around Cleveland, Ohio, for wine grapes grown in this region is the statement made in a letter just received here by Secretary Robertson of the Fresno County Chamber of Commerce.

The letter is as follows:  
Cleveland, Ohio  
Chamber of Commerce,  
Fresno, Calif.,  
Gentlemen:

I am a farmer near Cleveland, Ohio, and among other crops raise Concord grapes for wine. There is a worm that has got into the vineyards and has about put us out of business.

There is a market here in Cleveland for a good many car loads of Concord grapes. Concord will bring \$19 to \$21 a ton. I am sending address of man who could use a few car lots if the price and quality are right. Send him a list of the variety and grade of grapes that you could ship with freight prepaid to Cleveland, Ohio.

He does not want wine but wants grapes so his customers can see the grapes and make the wine to suit themselves.

There is a show for a good deal of business of this kind in Cleveland, Pittsburg, Youngstown and other similar cities in this region.  
I was in Fresno a few years ago as a "tourist" and had an idea you could offer as good as any part of the State.  
Yours truly  
THOMAS H. BLESS

P. S.  
Send prices and descriptions to  
Alessio Januario  
2107 E. 125th street  
Cleveland, Ohio.

# A Big 3-Day Sale to Celebrate Bowman's First Birthday

Just one year ago today Bowman's opened in Fresno.  
You remember the opening, don't you?  
You'll remember it by the little boxes of candy we gave away and the crowd that filled the store from the moment the doors were opened until the time we closed that night.  
That was the beginning of an interesting year in the business history of Fresno, a year of better, bigger, broader store-keeping of closer relations between the buyer and the seller.  
It has been a most satisfactory year to us, for practically everyone of the 365 days has shown us an increasing business and added opportunities to improve our service to you and to be more helpful to the community generally.

**BOWMAN'S OTHER STORES.**  
The Bowman Drug Co. has always been a growing institution.  
We've been growing steadily in Oakland for over 40 years, until today our Oakland store takes front rank in the West in point of business done and prescriptions filled per annum.  
Our Berkeley store was established ten years ago and it has been a success from the start.  
In Fresno we expect to do as we have done in Alameda county, where we are today selling to the grandchildren of the young folks who were our patrons forty years ago.  
Of course this association with our other stores has been wonderfully helpful to our Fresno store, helpful in quantity buying, in the exchange of ideas, in profiting by experiences.  
And therefore it is but natural that we should feel like celebrating such a successful year as this, our first anniversary in Fresno.  
**AND THIS IS THE WAY WE'LL CELEBRATE.**  
We believe that an appropriate series of special prices best serves the purpose for such an occasion, and we, therefore, quote the following:

**Note Carefully the Following Anniversary  
Specials For Thursday, Friday and Saturday**

10c Ivory Soap ..... 6c  
25c Hydrogen Peroxide (full pound) ..... 14c  
10c Cocoa Butter ..... 5c  
50c Quinine (full pound) ..... 33c  
25c Aspirin Tablets (2 dozen) ..... 14c  
25c Tincture of Green Soap ..... 17c  
25c Rose Water ..... 12c  
25c Glycerine and Rose Water ..... 14c  
10c "Frog-in-Your-Throat" ..... 5c  
25c Bowman's Shampoo ..... 13c  
10c Military Toilet Soap ..... 6c  
10c Bowman's Bar Soap ..... 9c

**SOCIALIST SPEAKERS  
PLAN BIG CAMPAIGN**  
J. Stitt Wilson and Others  
to Conduct Crusade In  
San Joaquin Valley

J. Stitt Wilson, former mayor of Berkeley, accompanied by Norman W. Pendleton, former pastor of the People's Center of San Francisco, and labor commissioner under Wilson in Berkeley, Mrs. Prudence Stokes Brown, an educator of national reputation, J. S. Cato, state organizer of the Socialist party, will wage a crusade for social and industrial justice through central California, beginning in Tulare county this week.  
The party is traveling in two decorated autos, and plan to reach every town in the state with their campaign of education.  
The speaking dates follow:  
Pondleton at Dinuba Oct. 16th.  
Wilson at Dinuba Oct. 16th-17th.  
The entire party at Lindsay and Porterville Oct. 18th-19th.  
Pendleton at Exeter Oct. 20th.  
Wilson at Exeter Oct. 21st.  
Pendleton at Oriskany Oct. 21st.  
Wilson at Oriskany Oct. 22nd.  
Pendleton at Tulare Oct. 22nd.  
Wilson at Tulare Oct. 23rd-24th.  
Visalia Oct. 25th-26th.  
After covering Tulare county the campaign will be carried into Kings county and then Fresno county. The party spending two days in the city of Fresno probably Saturday and Sunday, Nov. 5th and 6th.

Dr. A. L. Hunt, Osteopath, over Hotel, lands.

**LOWER INTEREST RATES PROVIDED**  
**Change Made In Currency Bill for Benefit of People of West**

WASHINGTON, Oct. 15.—Changes in the administration currency bill that would give lower interest rates to the people of the states of the west were enacted in the senate banking and currency committee today.

Senators Hitchcock, Democratic and Weeks, Republican, insisted that all sections of the country should enjoy the same rates of discount under the federal reserve bank plan. They contended that such a system undoubtedly would bring down interest rates in Western states where money is now earning high rates.

William H. Buckholz of the Omaha National Bank, N. E. Banfield of the First National Bank of Austin, Minn., William Ingalls of the Merchants and Mechanics Bank of Baltimore and Senator Thomas of Colorado were before the committee at today's hearing. Mr. Buckholz declared many of the members of Nebraska opposed the administration bill as it now stands, and that many National banks in that state were preparing to resign their charters and become state banks, unless some of the desired changes were made in the pending bill.

A plan to issue government bonds that will be exchangeable at all times for a special form of currency was presented to the committee by Senator Thomas. Some members of the committee expressed the opinion that such a plan would automatically regulate the volume of circulating currency.

Mr. Banfield, representing country bankers, urged the committee to change the bill so that mortgages running five years could be taken by banks as security for loans. The bill now limits such mortgages to one year and the amount of such loans to 25 percent of a bank's capital and surplus.

**WHALEERS HAVE VERY PROSPEROUS SEASON**

SEATTLE, Wash., Oct. 15.—The steam whaler Starr II and Star III returned to Seattle yesterday with a reason of unexpected success in Alaska waters, seventy-three green whales valued at \$1,000 each, having been taken. One boat harpooned five whales in a single day. Last year the Alaska sperm whale fishery was a failure and two companies retired altogether from the business. This year the feeding grounds of the animals were discovered.

**SHIP HAS CARGO VOLCANIC ASHES**

SEATTLE, Wash., Oct. 15.—A steamship from southwestern Alaska is bringing from Kodiak Island eighty tons of Mount Katmai's volcanic ash, to be made into metal polish. At the time of the first big eruption of Katmai, sailors on the dust-strewn ships discovered that the brass work was shining when the ash was rubbed off. The supply of ash is unlimited.

presented to the committee by Senator Thomas. Some members of the committee expressed the opinion that such a plan would automatically regulate the volume of circulating currency.

Mr. Banfield, representing country bankers, urged the committee to change the bill so that mortgages running five years could be taken by banks as security for loans. The bill now limits such mortgages to one year and the amount of such loans to 25 percent of a bank's capital and surplus.

**MRS. C. H. MACKAY BREAKS SILENCE**

**Files Formal Answer to \$1,000,000 Suit By Mrs. Blake**

NEW YORK, Oct. 15.—Mrs. Clarence H. Mackay, suffrage leader and wife of the head of the Postal Telegraph Cable company, broke her silence today regarding the million dollar suit filed against her by Catherine K. Blake, for alleged mismanagement of the affairs of her husband, Dr. Joseph A. Blake, surgeon.

Through her personal counsel, Arthur C. Train, Mrs. Mackay denies all of Mrs. Blake's allegations in a formal answer filed in the supreme court and characterizes Mrs. Blake as one who has a "jealous disposition, an unbecomingly temper," and "no affection of love for her husband," whom at one time, it is alleged, she threatened to kill.

Since 1895, Mrs. Mackay avers, Mrs. Blake has had no affection for the doctor.

"On the contrary," the answer continues, "she has sought to injure his good name by constantly spreading among his patients, relatives and friends false and unjust rumors and accusations regarding his professional integrity with other women and his neglect of his marital obligations, and has constantly declared to said persons that she, the said plaintiff, hated and despised her said husband, and wished to ruin him; and that during the year 1907 and repeatedly thereafter, she, the said plaintiff, threatened to kill her said husband."

"By reason of the facts alleged in the preceding paragraph, the plaintiff is and at all times mentioned in the complaint has been estranged from her said husband and has lived in constant and violent affection or love he may have had for her."

Mrs. Mackay alleges further that Dr. Blake has not lived with the plaintiff as his wife since the year 1904, "long prior to the time when she first knew of her acquaintance with the defendant, but on the contrary, he has avoided the plaintiff as much as possible and by mutual consent the said plaintiff and her husband have at all times since the year 1904, lived separately and apart and since the autumn of the year 1910 have maintained separate and distinct apartments."

Mrs. Mackay says she did not meet Dr. Blake until 1909, long after the breach had come between him and his wife, and she prays therefore that the suit against her be dismissed.

The summons and complaint in Mrs. Blake's suit was made public only yesterday. It set forth that she was living with and being supported by Dr. Blake until four years ago. Mrs. Mackay, she charges, "willfully, wickedly and maliciously alienated his affections," and still alienates them. Mrs. Blake's suit for separation against the doctor is still pending in the courts.

**OFFICERS OF STATE W. C. T. U. ARE CHOSEN**

SANTA CRUZ, Cal., Oct. 15.—At the principal officers of the Women's Christian Temperance Union of California were re-elected here today in the closing session of the annual state convention. They are:

President, Mrs. Sarah J. Dorr, San Jose; recording secretary, Mrs. Pauline J. Skore, Petaluma; treasurer, Mrs. Iowa M. Holston, San Jose; auditor, Mrs. Ida S. Orvis, San Jose.

Mrs. L. P. Williams, superintendent of district work in her report said that 6,500 Chinese had been baptized into Christianity in California during the past year. She gave the number of Chinese in the country as 25,000, of whom, half lived in California. Native born voters, she said, numbered 100,000.

Two Japanese women, wives of Japanese editors, told of the work they had done among the Japanese of Oakland.

**INSPECTOR ACCUSED OF KILLING CHILDREN**  
**Strange Turn Is Taken In "Ritual Murder" Trial**  
**At Kiev, Russia**

KIEV, Russia, Oct. 15.—The examination of witnesses was continued today in the trial of Mendel Belles, accused of having committed a "ritual murder". Detective Polistchik, who was present at the early investigation of the murder of the two children, Yushinsky, in testifying this afternoon, virtually charged Krassovsky, the former head of the Kiev detective service, with poisoning Eugene Teheberak and his little sister Valentine, who it was alleged, had been killed during off Yushinsky's trial. He alleged both died from eating cakes which had been given to them by Krassovsky.

Krassovsky, an inspector of police, was released in the case and in a recent court decision, gave it as his opinion that the killing had been done by a band of criminals, the head of which was Vera Teheberak, mother of the two children, Eugene and Valentine.

**JULIAN HAWTHORNE RELEASED FROM JAIL**

ATLANTA, Ga., Oct. 15.—After more than six months' imprisonment in the federal penitentiary here for violating the postal laws, Julian Hawthorne and Dr. W. J. Morton of Boston, today are free. They planned to leave for New York.

Hawthorne and Morton were sentenced March 21, last, to terms of one year and one day, but it was ordered that their sentences date from the time of their arrest, four months previous.

Since he entered the doors of the Atlanta prison, Hawthorne's record, according to officials, has been such as to prove particularly helpful to his fellow prisoners. He has made noteworthy contributions to the prison paper, it was said, and was considered a valuable counselor by his fellow prisoners.

**Kutner's 1801-1819 Mariposa Street**

**AGAIN BLOCKS PLAN FOR 3-DAY RECESSES**  
**Minority Leader Mann Still Waging Fight for Adjournment**

WASHINGTON, Oct. 15.—Republican Leader Mann again today blocked efforts of the House Democrats to recess three days at a time and refused to agree with Majority Leader Underwood that no legislation should be introduced before December 1, unless the currency bill should return from the Senate before that time.

Mr. Underwood stated that adjournment could not be asked of the Senate because it was the duty of the party to uphold the hands of the President in his desire to expedite currency legislation.

"The President has asked me," said Mr. Underwood, "not to agree to an adjournment until the bill has either passed or some satisfactory agreement has been made in the Senate."

"There is only one way to settle this," said Mr. Mann, "and that is adjournment of the Senate. I don't believe there is any more chance of the currency bill being passed in the Senate before December than there is that the sun will not rise tomorrow."

He would much prefer to be a member of the Mexican parliament and be arrested by a dictator than to lack the nerve to face a dictator here and vote to adjourn.

**MAKES DEFENSE OF 5 PER CENT CLAUSE**

WASHINGTON, Oct. 15.—Representative Underwood, an early White House caller today, defended the 5 per cent clause of the tariff law giving a discount to imports in American ships by declaring it was merely a return to the original Democratic doctrine of "Americanism" and "protection" and would rehabilitate the American merchant marine.

Later it became known that President Wilson held practically the same view of the situation as did Mr. Underwood, and that the whole matter could be decided in a few minutes by the President instead of by any effort to repeal or modify the law.

**FRANCE STARTS AERIAL MAIL LINE**

VILLACOUBLAY, France, Oct. 15.—The first French aerial mail was dispatched from here by aeroplane at 7 o'clock this morning. Lieutenant Andre Roux carried the bag containing twenty-two mailbags of letters destined for the West Indies and Central America to St. Julien Bay, Bouches-du-Rhone, from which place they were transported by automobile to the airport of Pauillac and placed on board the steamer Perou. Lieutenant Roux landed at Pauillac at 2:15 p. m., having accomplished the 100-mile journey in seven hours and a quarter, beating the mail trains by more than an hour.

OFFICE 1143 J ST., FRESNO, CAL. PHONES 1230-1090

**ROBBER SECURES LESS THAN \$100**

SAN FRANCISCO, Oct. 15.—Postal inspectors believe that the robber who rifled the mail car of a local train from Salinas yesterday got less than \$100. Traces of the contents of the mail-sacks show that the registered letters they contained would only reimburse for small amounts.

The inspectors believe the robber was ignorant of the fact that a tunnel fire this side of San Luis Obispo shut off all mail from further south.

The two mail clerks who were held up can give no description of the masked robber except that he seemed to be 35 years old, weighed 160 pounds or thereabouts, wore brown clothes and a black derby hat.

**HOLD FUNERAL OF TIMOTHY WOODRUFF**

NEW YORK, Oct. 15.—Leaders of the Progressive party and many other prominent men today attended the funeral of Timothy L. Woodruff, former lieutenant-governor of New York, and after he left the Republican party, one of the leaders of the Progressive party.

The funeral services were held at the residence of his sister, Mrs. Rodney Ward, in Brooklyn, and at the Central Congregational Church. The Rev. S. Parker Church delivered the eulogy. Burial was in Greenwood cemetery.

Among the honorary pallbearers were Chauncey M. Depew, Theodore Douglas Robinson, George W. Perkins and Frank A. Munsey.

**LUTHERAN SYNOD ELECTS OFFICERS**

SACRAMENTO, Oct. 15.—The California Lutheran Synod elected the following officers today:

President, Rev. John Edward Holck, of San Jose; Vice-president, Rev. Herbert J. Weaver, D. D., of Los Angeles; recording secretary, Rev. Geo. H. Hill, of San Diego; statistical secretary, Rev. Oscar H. Gruber, Oakland; archivist, Rev. John R. Trauer, Ph. D., of San Francisco. Directors of the California Educational Institution chosen are: Rev. O. H. Gruber, Rev. C. F. Ogilvie and Rev. J. E. Reimer, of Riverside.

**FIND SHIP HULL IN SACRAMENTO RIVER**

SACRAMENTO, Cal., Oct. 15.—City Harbormaster MacArthur, believing that some was toppling river traffic off the city wharf in the Sacramento river, put three charges of dynamite under the obstruction today and brought to the surface the hull of a ship.

Phosporus on the river can be seen no ship's hulls for the past sixty years.

**TEN DIE IN WRECK**

LIVERPOOL, Oct. 15.—Ten passengers were killed and a number of others injured in a collision near here today between a local train and the Manchester Express. The rear coach of the express was shattered.

**"IT'S GOOD" SAYS CITY GUARDIAN**  
**Popular Patrolman Says Plant Juice Is Best Tonic On the Market**

There is no more popular, better known, better liked man in Fresno than Police Officer Fred Morrison, who has lived in Fresno for several years and is well known to everybody here. Mr. Morrison resides at the Bun Air apartments. He said:

"For several months past I have suffered greatly from acute attacks of stomach trouble and have also been bothered with liver trouble, with terrible pains under the shoulder blades. My liver was sore and I could not bear to touch my right side. I felt miserable all the time. Started taking Plant Juice on the advice of a friend and it has done me a world of good. My liver is acting well and I turn no more pains. My stomach is in good condition and I can eat anything I like without distress afterwards."

Plant Juice always "makes good." There are thousands of people in California who attest to this. It is a vegetable remedy for all ailments of the stomach, liver and kidneys. If you have pains in the side or shoulders, or across the back, have indigestion, gas or bloating, after meals, sour stomach, foul breath, coated tongue, are bilious, or sleep poorly, try Plant Juice. You will be surprised and pleased at the quick results you will get. No matter if your ailments are chronic or of long standing, Plant Juice will do the work for you. For sale at the San Joaquin Drug Company's store.

## LAWYERS DE FRAUD WOMAN IS CHARGE

One Accused of Being Agent  
In Scheme to Arrest  
Honey for Murder

OAKLAND, Cal., Oct. 15.—Allegation of a conspiracy on the part of Attorneys Howard Harron and Marshall Woodworth of San Francisco, and R. B. Mott of Oakland, to intimidate Elizabeth M. Hall of Modesto into paying them \$5,000 with threats of sending her to San Quentin for violating the postal laws, Deputy District Attorney Ezra W. Decoto today filed an answer to a suit for \$10,000 alleged slander brought against him by Attorney Harron.

The answer reiterates his alleged slanderous words and further alleges that Attorney Harron in 1908 had acted as agent for Abraham Ruef in an attempt to induce J. C. Handy for \$50,000, to return to Arizona and swear to a warrant charging Francis J. Honey, special prosecutor of the "graft cases" in San Francisco, with murdering his father, Dr. Handy.

In addition to this the answer recites the circumstances through which Attorney Harron was convicted of a conspiracy and fined in Southern court in 1901 for an attempt to dispossess

## PEOPLE OF NOME NEED MORE RELIEF

NOME, Alaska, Oct. 15.—Funds gathered by the citizens' relief committee here to aid sufferers from the recent storm and flood, have been exhausted and outside help is urgently needed. Captain Ballinger of the revenue cutter that informed the committee yesterday that he would go report to Washington. Outside assistance has reached a total of \$10,000 up to this time.

The committee's figures show that there are 500 persons destitute and without shelter for the winter.

Mrs. Hannah A. Fleming of White Sulphur Springs, CALLED HIM CROOK. Attorney Harron sued Deputy Decoto as the result of an incident which occurred in the police court before Judge R. H. Tappan on August 18 last, when Decoto called him a "crook" for his connection with the charge brought against Frank E. Hall of failure to provide for his minor child. Hall is a nephew of Elizabeth M. Hall and Attorney Harron, respectively. Mrs. Hall, widow of the defendant.

That Harron, Woodworth and Mott had obtained a check for \$5,000 as part payment of an agreement signed by Elizabeth Hall in the office of Harron last January, is charged by Decoto who says that they agreed not to prosecute her only upon entire payment being made. The money, Decoto says, was supposed to have been for Mrs. Frank Hall but that the greater portion of it was really to have been divided in some proportion among Harron, Woodworth and Mott.

Decoto, who is represented by District Attorney A. H. Hynes, and Deputy District Attorney J. C. Handy, made a motion to have the case set for trial at an early date.

## ARGUES FOR REVERSAL OF PIPE LINE RULING

WASHINGTON, Oct. 15.—Solicitor-General Davis argued before the Supreme Court today for the reversal of the Commerce Court's action in declaring the "pipe line law" unconstitutional. He contended that the law passed in 1906 to free the country from the oil monopoly and that a court order for the dissolution of the monopoly entered since furnished no reason for annulling the law.

He argued that it was just as proper for the government to impose financial loss upon pipe lines by requiring them to carry their competitors' oil at reasonable charges as it was for the states to pass liquor laws resulting in losses to brewers.

## BRIEF EDITORIAL FANCIES SELECTED

Absurdities of  
Zo-Ophilism

Anti-zoophilists are incurable in their stupidity and their strict-like disregard for facts. They never cease in their unjust hostility to Pearson and Lister and in their kindergarten rejection of the germ theory of disease. A certain Dr. Hodge has been indulging in an extraordinary diatribe, which entirely ignores the absolute demonstrations of Reed, Lazzar and others in Havana, the work of Gorgas at Panama, the diagnosis of malaria by finding the parasite of Laveran, the diagnosis of typhoid by finding its germ, the value of the anti-typhoid inoculations in our army in Texas, and all the rest of the rapid contemporary progress. The letter is published with obvious sympathy by a magazine devoted to the cause of zoophilism. He is one of those few doctors who have forgotten nothing, but also have learned nothing. A physician, he well represents the extremely small number in his profession who are stupid enough to block the path of progress.—Harper's Weekly.

Bigger Grandstand  
for Fair Grounds

It is about town for the Fresno Fair Association to use some of their surplus to build a grandstand. There was not accommodation for half the people present last Saturday, and they sold hundreds of tickets to the grandstand after the seats were filled—and they knew it when the tickets were sold.—Fowler Independent.

Soldiers in  
the Senate

With Gettysburg and Chickamauga and the other great battles of '63 fifty years ago, there are still eleven soldiers of the Civil War in the United States Senate. On the Union side were Bradley, de Pott, Goff, Nelson, Warren and McKim; on the Confederate side, Bacon, Hancock, Patton, Martin and Thornton. Caution is the first Republican Confederate since the days of General Mahone of Virginia, to attain a seat in the Senate, and his Republican colleague from New Mexico, Senator Fall, is the son of a Civil War soldier and was one of the Rough Riders in the Spanish War. Five of these old soldiers have recently come to the Senate, so there may be others yet to come. Bradley relates that at the age of fourteen he ran away from home twice and joined the Union army but "on account of youthfulness" was taken by his father from the army on each occasion. Fortunately none of these soldier senators is a waver of the bloody shirt, and it is hoped that with the departure of Senator Heyburn we have seen the last of that article of apparel.—Harper's Weekly.

OCTOBER  
When is the bully month or all?  
October, October!  
When autumn leaves begin to fall?  
October.  
When is the time our mothers make  
The toothsome, crispy buckwheat cake,  
And of that dainty we partake?  
October, October!

When does the air take on a tang?  
October, October!  
And 'round the kitchen hearth we hang?  
When is the hummock, fluff the tree,  
From all its summer lovers free,  
And in the house the lunch we see?  
October, October!

When do we don our heavyweights?  
October, October!  
When do the coal men raise their rates?  
October.  
When do we feel that we require  
The warmth of just a little fire,  
And let the iceman's card expire?  
October, October!

When does an overcoat feel fine?  
October, October!  
When for pork sausage do we pine?  
October.  
When do flat-dwellers all blaspheme,  
And wildly rave and shout for steam,  
(To get which they must scheme and scheme)  
October, October!

When do the hunters fieldward trot?  
October, October!  
And all the farmers' cows with shut?  
October.  
When do the pumpkin pies appear,  
And eider take the place of beer?  
That grand old month of all the year,  
October, October!

—E. A. BUNNINGSTON, in Los Angeles Express.

THE WATER-MAKERS' MARKET. Hebron, one of the oldest cities in Palestine, has always been famous for its Oriental water-bottles, made of goat-skins. Here, says a writer in the English Little World Magazine, are the rapid large tanneries where these receptacles are turned out by the thousand. The "water-makers' market" being situated to the east of the ancient city, lying upon the ground in rows may be seen between 200 and 300 goat-skins awaiting purchasers. Each skin is inflated either with water or with air, so that the buyer may know that it is perfectly water-tight. The majority of the skins used come from Arabia, while a large number are also received from the Libanons. They are brought to Hebron by the camel caravans, and are purchased by the tanneries and turned into bottles. They pass through many processes, and a tanner will spend a week upon a single skin before it is rendered water-tight and saleable. From Hebron these odd "bottles" are sent to all parts of the East, thousands going down into Egypt and the Sudan every year. They are also used as rafts. A number of inflated skins are attached to a light wooden frame, which then not only readily floats, but is capable of

## IMPERATOR BOILERS FOUND DEFECTIVE

HAMBURG, Oct. 15.—The Hamburg American line admitted today in reply of earlier denial that the boilers of the Emperor have proved defective and that complete rebuilding is necessary in order to reduce the excessive coal consumption and to increase the speed of the vessel. The builders by their contract will have to pay approximately \$1,500 for every day the vessel is idle.

## LINDSAY IS SOON TO HAVE THEATER

LINDSAY, Oct. 15.—Lindsay is soon to have a new first-class theater. The building is now nearing completion, and will be up to date in every respect. The stage which is 24-16 feet will be fully equipped with fly, gallery and grillwork, including a complete electrical equipment and set of scenery. It is expected that the new building will open about November 15. C. H. Geldert is manager of the theater.

Considerable interest is being manifested here in the Fresno picnic contest. At present there are five candidates, Miss Vella Robbins, the high school candidate, being in the lead. Street signs have now been placed on all the street corners, giving Lindsay a metropolitan aspect. The houses are taken to be numbered soon, and when this is done, the city will probably be granted free mail delivery by the postoffice department, the postal receipts for the past year more than warranting this advanced step.

## CLOVIS NEWS NOTES

CLOVIS, Oct. 15.—Rev. J. W. Jordan and Arthur Gate left early this morning for Santa Rosa, where they will attend the synod of the Presbyterian church of California. En route they will stop over at Oakdale for the San Joaquin assembly of the Presbytery. Rev. Jordan will also spend a few days in San Francisco. The trip will extend over ten days.

A Clovis bazaar is to be held at the close of the Farmers' Institute which will convene here in November. At this time Clovis proposes having a local baby show as well as many other attractive features, besides the display of the town and district's best products.

Mr. and Mrs. H. Madsen, of St. Paul, have been here looking after property interests and visiting their mother, who is employed in the station of the S. P. Madsen is a prominent druggist of the Minnesota capital.

Mr. and Mrs. A. C. Layton have recently come to reside in Clovis from Rocklin, California. They are at present occupying one of the De Graw houses.

A. A. Muller, of Santa Paula, was in town on business last week. J. H. Duffy of Sacramento is paying this vicinity a visit and incidentally looking over his many assets.

## MORGAN WILL FILED.

LONDON, Oct. 15.—The will of the late J. Pierpont Morgan was probated here today. His estate in the British Isles amounted to \$3,899,155. The government will receive about \$530,000 in death duties.

## NOT HER AGE

In St. Louis a stout colored woman, apparently about 40 years old, was called as a witness in an assault case before a police judge. She said: "I am 84, and I live down near the river, and this is what I saw when the fight took place."

On cross-examination the attorney for the defense asked her when and where she was born, and she replied: "Right here in St. Louis, in July '72." "Then," cried the lawyer in a triumphant tone, "what do you mean by saying that you are 84?" "That ain't my age; that is my last measurement,"—Baltimore Sun.

carrying quite a heavy load. Such craft are to be seen upon the rivers of Syria and also upon the Euphrates and Tigris.

## CATARRH Of the STOMACH

—Leads to dyspepsia, causes indigestion, always results in sour stomachs, watery brash and loss of appetite; causes you to belch up gas; causes your tongue to become coated; causes you to burp up after eating; causes you to feel faint; makes you feel as if you had lead in your stomach; causes belching wind and sour food, bad taste in mouth, offensive breath; causes shooting pains in the stomach; if neglected brings on inflamed and ulcerated stomach. S. B. CATARRH REMEDY heals and invigorates the stomachs that have been weakened and impeded by chronic diseases, restores taste and strength, and is a cure for all stomach troubles and loss of appetite when taken according to directions.

## Stomach Troubles Due to Acidity

So Says Eminent Specialist. So-called stomach troubles, such as indigestion, flat, stomach-ache and inability to retain food, are in probability due to acidity of the stomach. Evidence that fermentation is taking place in the food contents of the stomach, causing the formation of gas and acids. Wind distends the stomach and causes that full, oppressive feeling, sometimes known as heart-burn, while acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the fermenting food. Such fermentation is unnatural, and acid formation is not only harmful, but may involve most serious consequences if not corrected. To cure or prevent fermentation of the food contents of the stomach and to neutralize the acid and render it bland, use the famous, a teaspoonful of bisulphate of magnesia, probably the best and most effective remedy for acid stomach known, should be taken after a meal, or a glass of hot or cold water immediately after eating, or whenever wind or acidity is felt. This stops the fermentation and neutralizes the acidity in a few moments. Fermentation, wind and acidity are dangerous and unnecessary. Even the most violent heart-burn, a proper antacid, such as bisulphate of magnesia, which can be obtained from any druggist and thus enable the stomach to digest food properly without being hindered by poisonous gas and dangerous acids.—M. P. N.

## YOUNG TEAMSTER SERIOUSLY HURT

Run Over By Truck; Team Scared By Motorcyclist; Keeps On Going

J. P. Helmuth, a young teamster, was run over and seriously injured by his heavy wagon truck yesterday afternoon on the road just on the other side of the Barton vineyard. He had been riding his team when a motorcycle passed, scaring his team of four mules so that they ran away. He attempted to stop them but tripped and fell, the two wheels of the truck passing over his body knocking him unconscious. The motorcyclist passed on, not offering to render him any aid. How long he lay suffering on the roadway in the hot sun is unknown.

A. H. Thomsen and E. Von Zeuner on their way to this city in an automobile found Helmuth lying in the road, groaning from pain with his face bloodied, feebly clutching his right side as though he was most hurt in that place.

They picked him up, rendered what aid they could and were just putting him into their machine when Charles Schongard came by with a larger automobile.

The injured man had partially come to by that time and when asked who he was, he answered, "Phoenix, Phoenix." It was later found that he was an employee of the Phoenix Packing Company. He was then placed in the other machine and rushed to the Burnett sanitarium. Helmuth had lapsed into unconsciousness when he reached town.

Examinations by the doctors showed that he was suffering from severe internal injuries. No bones, however, were broken.

Later in the evening he regained consciousness and told "the story" of the accident in broken sentences.

## SAYS S. AFRICA IS GOOD FRUIT REGION

Cape Province Dried Fruit Agent Here to Study Valley Methods

Many sections of South Africa promise to become big fruit-producing regions in the near future according to C. Marais, special agent of the South African Dried Fruit Company of Cape Town, who is in the Valley for a few days to study the various means of growing and handling the fruits produced here. He is stopping at the Fresno Hotel and will be here for about ten days.

Marais has been studying the fruits of California for about two months and expects to sail for his home which is in Wellington, Cape Province, South Africa, about November 10. For the last two months he has been investigating in Santa Clara Valley. Peaches, prunes and grapes are his specialties.

According to him, nearly all of the fruit that is raised in Cape Province and the adjoining sections is consumed at home at the present time. The orchards and vineyards are in the most cases only young ones, having been planted during the last few years.

Several large companies are now planning on investing large sums of money in new orchards in South Africa as all kinds of fruit seem to thrive there, especially peaches and prunes.

The dried fruit industry there is but a new one but promises to be a large one within a few years, Marais says. The climate is similar to that of both the San Joaquin and the Santa Clara valleys and the soil, in most cases, is of the same character.

The little fruit that is shipped out is sent to Europe where it meets with a ready demand and extra good prices, because it comes in what is called an "out season."

Marais said that some of their peaches which arrived on the South Coast of Europe in good condition brought as high as 50 cents apiece.

Only a few grapes are raised in South Africa at the present and but few rubins are made. Most of the grapes are of the wine variety and are made into wine and consumed at home.

During the time that Marais is here he will also look into the methods employed in the curing and packing of the dried fruits.

## BODY OF MRS. BOYD WILL ARRIVE TODAY

Funeral Services Will Be Held Saturday Morning From Church

Dr. Thomas Boyd, his two daughters and a party of Fresnoans, arrived in Fresno late last night from Santa Cruz where Mrs. Boyd died yesterday afternoon. The remains of Mrs. Boyd will be brought to this city this morning on an early Southern Pacific train. The body will be accompanied by P. Dean Prescott.

Funeral services for the well known Fresno woman will be held Saturday morning at 10 o'clock from the First Presbyterian church, according to arrangements made yesterday. Burial will be in Mountain View cemetery. The complete arrangements for the service will not be made until today. The pastor who will officiate, has not been selected.

## Instructional Talks On Player Pianos No. 3

# You Can Play a Player Piano With Just As Much Expression As Musicians Play Ordinary Pianos

If you heard a player piano a number of years ago, some time when they were considered a novelty and were very little like they are today, don't think that you know what they are.

Improvements have been made in them just as improvements have been made in everything else. If you told anyone about an automobile, and let your description be that of a car built several years ago, you would make it very misleading.

Wonderful improvements have been made in automobiles, but they are no more wonderful than those that have been made in the player piano. People no longer buy driving horses; they now buy automobiles. And they are rapidly learning to buy a player piano instead of a plain ordinary piano.

Now this is the reason.

A player piano can be played with just the same expression that a talented musician gives to his renditions of difficult pieces. And anyone can do it.

Now don't think of the old time player piano. Remember that improvements have been made. You can give expression to every note. You can do this just as the musician can.

## 2 Pianos In One

A player piano is two pianos. It is a player piano and it is an ordinary one. It can be used with the player or without it. It looks just

like an ordinary piano. It is two pianos in one.

You have to see this instrument to really appreciate what a wonderful one it is.

## Let Us Demonstrate

We want to demonstrate it to you. We want to show you how it is built. We want to show you how easily it is operated. We want to teach you to play it, to teach you how you can enjoy the best of music. We want you to know how YOU can play this piano and produce just as good music as one who has spent years in learning to play.

We have these player pianos, the best makes of them. They have all of the improvements, all of the little devices that give to music that expression that distinguishes real melody.

With a player piano you can bring to your home the music you love. You can enjoy the very best. You can enjoy it when you want it.

If there is a mute piano in your home, a piano that is mute just because there is no one to play it, let us talk to you about a player piano. If you love music and want it in your home, you'll be interested in the player piano.

There is no limit to what it will do. You can play anything that you want. You can have ragtime, classical, and sentimental music. You can have anything you want. And it is a master musician playing it when you play it on a player piano.

# Farmers Attracted To Valley Oaks

## FROM ALL OVER THE STATE

## Here's a Continual Flow At a Small Cost Per Acre

The remarkable water situation at Valley Oaks has made this property a great success. Since the opening day, only a few months ago, excellent progress has been made developing and promoting this proposition. At this early date many homes have been completed, and at least a dozen are now in course of construction. The buyers are devoting their time and energy to getting their alfalfa planted.

It is along what is known as Harvey Avenue that the Western State Power company have set their poles and stretched wires for their power line. This company is furnishing light and power to farmers in Valley Oaks, who in every case will employ electric motors to run their irrigating plants. Pumping plants installed free of charge. The irrigation at Valley Oaks is

positive and abundance of water is pumped from wells ranging from 50 to 100 feet in depth where an unlimited supply is found. Included in the purchase price of each farm is an excellent pumping plant, which is installed at no extra expense to the buyer. Electric power is used to run the pump and it costs only a few cents an acre to irrigate.

### ALFALFA THE BANNER CROP.

The alfalfa demonstrations at Valley Oaks are phenomenal. The firm have several demonstration farms to show prospective purchasers what the land will do. The farms are located in various places on the property. One farm of 30 acres shows alfalfa three years old, another shows it one year old, and another producing a ton and one-half to the acre, and another

shows it five years old, another just planted shows an elegant young stand. Then there is a demonstration farm located on the great highway. This farm is planted to alfalfa, various truck crops, oranges, prunes, peaches, berries, and many other products.

### SPECIAL EXCURSIONS.

Being run from San Joaquin Valley. Stine & Kendrick have established offices in Fresno and Tulare and have special representatives in this field, and are making parties from here every week at a very cheap rate. They have a list of recent purchasers from Fresno to Tulare who have bought at Valley Oaks. These men are real farmers and their judgment surely counts for something. If you would address their Fresno office at 1829 Fresno street, or their home office

at 23 Montgomery street, San Francisco, you would receive a beautiful booklet telling more about Valley Oaks, what can be done there and what other farmers are doing. They will also tell you of our easy payment plan and show you the way our property is located—with fine train services, all the conveniences of city life, stores right at hand, good schools from primary to high, and churches of every denomination.

If you are tired of waiting for water, if you look for a farm where you can irrigate your alfalfa when it needs it by simply turning on the power, you should surely investigate Valley Oaks.

Write to us now for further information and we will gladly send same to you without obligating you in any way.

# STINE & KENDRICK

23 Montgomery St., S. F. C. G. MURRAY 1929 Fresno St., Fresno

# Oil News from California Fields

## LOST HILLS STRIKES SECOND GUSHER WELL

### Following Vulcan General Petroleum Brings In Light Oil Well

LOST HILLS, Oct. 15.—Well No. 5, section 4, 27, 21 of the General Petroleum Co., came in last night at a depth of 1420 feet. The well has been flowing over the derrick, at intervals during all of yesterday. There is a very strong gas pressure, and the oil is 35 gravity. While the well sanded up last night, there is every reason to believe that it will be one of the largest producers in the district. It is located just across the line and opposite the Vulcan Wells, Nos. 3 and 5, which are two of the best producers in the field. Those two wells are several months old now, but are still flowing. Their combined production is 850 barrels per day, of 35 gravity oil.

## VISIT ASSOCIATED PROPERTY IN FIELD

LOST HILLS, Oct. 15.—Arthur F. L. Bell, chief engineer of the Associated Oil Company, and wife, together with Ed Bedichek, superintendent of the Associated, at Santa Maria, motored over to Lost Hills by the way of Paso Robles yesterday. The party looked over the property of the Associated Oil Company, in the Lost Hills with Superintendent Schneider and later continued on to Coalinga.

## CEMENTING CALLS BECOME NUMEROUS

Work in Midway and Fullerton Fields Cause Workmen to Do Overtime; Order Comes from Monterey Field

TAFT, Oct. 15.—Huber & Wilson, the oil well cementers by the chemical process are working Doc Wilson, the head cementer, overtime in an effort to cover the calls both from the Fullerton and the Midway fields, as well as for a wildcat well in Monterey county. Wilson has just returned to Taft from the Fullerton field, where he cemented the No. 2 well of the Valbuena Oil company, at a depth of 2350 feet. The 84-inch casing was landed at this depth. Two and one-half tons of cement were used. The No. 3 well of the Dorsey was also cemented. The No. 2 well of the Bradley Oil company, on section 15, 32-23, which is concerned, because of its having been cemented several times and then later leaked, is to be cemented in the next few days. The well is down 2100 feet. This well is one which promises to attract much attention among oil operators, because of the trouble which it has given in the past. The cement is to be forced through the perforations, which is somewhat different from any other method ever tried before in the Midway field.

Wilson left yesterday for Bradley, where he has a contract to cement two wildcat wells for the Metropolitan Oil company owned by Rainey Broomfield and S. G. Hope Johnson, of the Pacific Motor Car company. One well is an old one recently taken over from the Plator Oil company. The No. 2, which was put down by the Metropolitan company, has the casing landed at a depth of 2600 feet.

## TAFT MAY BE FEDERAL OIL FIELD OF FUTURE

Such Is Indicated By Recent  
Naval Reserve Order  
As to Lands

Withdrawal Affects Gusher  
Territory and Valuable  
Oil Holdings

TAFT, Oct. 15.—That the city of Taft may some day be a forest of derricks, with the wells drilled to supply oil for Uncle Sam's navy, is the gist of what appears to be the plans of the government in its investigations of the properties included in Naval Reserve No. 2, which has just been made public.

Naval Reserve No. 1 was considered a joke by oil men conversant with the properties withdrawn. This included about 275,000 acres in the Elk Hills region, there being but little which ever showed any oil, although the greater part of it was drilled over, with wellheads being spent.

The second naval reserve takes in some of the most valuable properties in the Midway, and includes section 13, 32-23, according to the report. The greater part of the land withdrawn is claimed by the Kern Trading Co. Oil company, the Honolulu and the Standard. Of the most valuable properties in the withdrawal none shines more than does section 35, 31-23, the Midway. The Standard, which has been the heart of the gusher territory for some months. Another excellent section is 34, 31-23, where the Associated and Union Oil companies have brought in excellent wells in the past few months.

Section 23, 31-23, where the Record, Caribou, Marlin, California Amalgamated and United are located, is also looked upon as an excellent paying lease. Included in the withdrawal is section 2, 32-23, upon which is located the Section Two Syndicate division of the North American Oil company, which was recently purchased for \$1,250,000. The excellent wildcat property of the Boston Pacific, on section 22, 31-24 is also on the list. On this section the General Petroleum company, the St. Helens Petroleum company, and the Boston Pacific company are now drilling.

The old Derby lease on section 18, 32-24, which is now being operated by the Standard with its neighbors, the St. Helens Petroleum company and the Northern Exploration company, are also up for investigation in the withdrawal.

"Among the oil men there is no feeling that the lands are to be taken up by the government despite the withdrawal, and especially is this so where property development is being carried on. It is believed that the government of fields are bound to be sold to someone who have gone ahead and developed their leases, and that in such cases the operators will be exempt."

As far as the city of Taft is concerned, this is also believed to be the rule that will be followed, for Uncle Sam has never been known to do anything so rash as to devastate a thriving city, even though the navy needs the oil and there is oil under the city.

## CALIFORNIA LEADS IN PRODUCTION OF OIL

Oklahoma Is Second; Interesting Statistics of  
World's Output

COALINGA, Oct. 15.—California leads in oil production the list of states with 32,190,304 barrels; Oklahoma is second with 30,030,156 barrels. California is credited with 6,321 producing wells; 715 wells during the year were productive, and 71 dry holes were drilled. In 1912, 8,654 wells were drilled to oil, 440 dry holes for the year. The rapid steps with such crude petroleum has advanced in the last few years is remarkable, and now the advance in price of crude oil to the producer will shut out some of the railroads now using crude oil for fuel, except in localities where the law makes it compulsory to use oil as a safeguard against forest fires, or where the railroads own lands. In 1912 there were forty-eight railroads in the United States using fuel oil, 33,005,535 barrels were used, the number of miles of railroad operated 28,451.

The report of the world's production of crude oil for 1912 shows the United States as ranking first, with 222,113,215 barrels the year's production, a gain over 1911 of 1,663,827 barrels. The United States produced 63.25 per cent of all the oil produced in 1912. Russia takes second place, with 68,019,203 barrels, while Mexico holds third position with 16,508,215 barrels. The fields of the Tampico region has been great enough to cause Mexico to be third in importance among the nations in the production of crude petroleum for the year 1912. Two hundred and fifty-two wells had been drilled up to December 31, of these wells sixty-four were active producers, 90 per cent of the production for the year came from about five producing wells.

## NEW OIL FIELD MAY BE FOUND IN MESA

Predictions That Oil Will Be Found  
Between Bakersfield and Tejon  
Section May Yet Be Realized

TAFT, Oct. 15.—Whenever Kern county with her world's greatest fields cannot start something new in the game at least once in a year, it is certainly a pretty dull season.

But little more than a year ago, all Kern was agog over the discovery of oil at Wasco, and values leaped to the skies and leases were made for miles around. Then the bubble quieted down with the well showing up to be very much water and just a little oil. The boomers along are left but they are sticking to the idea that there is oil to be had with the well being put down right and perhaps it will be.

And now to brighten 1913 as she is wanting comes the boost for Edison with George Hay, J. B. Batz, and J. H. Jordan discovering oil while drilling a water well. Such is a surprise indeed, though many have contended that oil will be found in the country between the Kern Mesa and the Tejon country.

There is oil and its derricks in the orange groves of the Fullerton field and indications now are that the Edison grove of Edison will be traced with a rig in the near future.

The Kern Mesa is a better bet for the raising of fruits, alfalfa, etc., than the raising of oil. It is a pity that the Edison should be extended along this bluff near the old Santa Fe well to the coast. Indications are that no one would object.

To some the oil that does not look as good as the orange blossoms, but to a people of Kern county, there is ever the feeling that there will not be any rearing other than that of the casing which will affect the production.

## BIG OIL TRANSACTION MAY BE CONSUMMATED

Report From London Schell  
Interests Have Secured  
Union and G. P.

LOS ANGELES, Oct. 15.—A report reached this city yesterday that the transfer of the Union Oil Company and the General Petroleum to the Royal Dutch-Schell Combining has been agreed upon by Eugene De Sable, Jr., and representatives of the foreign corporation. Lyman J. Stewart, president of the Union Oil Company, and Robert Watchorn of that corporation, when they had not had time to leave, have been advised of any such development in the projected deal as that reported from London.

Mr. Watchorn said he felt certain that such a deal concerning a deal of such magnitude, if it is consummated, would come to the officers of the interested concerns before gaining circulation throughout the disinterested concerns. He said that he had seen last night stated they have not been advised of any such development in the projected deal as that reported from London.

Mr. De Sable only left for London a little more than a week ago, according to Mr. Watchorn. The report is that Mr. De Sable yesterday had in fact, Mr. De Sable already had several long conferences with the joint representatives of the Shell company and the Royal Dutch Petroleum company.

Mr. Stewart said it was possible the basis for an exchange of control had been reached, but added he was surprised that no word of it had reached him, if it was true. He said Mr. De Sable had not had time to leave, but that Wall Street interests had sorted it was impossible to bring about the end he had in view.

## PRINCESS

(Continued from Page 13.)  
used in this realistic presentation of the great marine tragedy. It is in three animated scenes. The harbor of Southampton, England, with steamers, sailing vessels, race boats and other craft arriving and departing. The Titanic leaving the harbor on her maiden voyage. The approach of icebergs, the collision with the berg, lowering of the boats, passengers jumping overboard, ship's orchestra playing last number, explosion, final plunge and many other incidents.

Sixteen stage carpenters and property men are used to work this wonderful production. Principal of the other acts on the program is "The Soul Savers," a tabloid production in which Margaret Liles stars. Miss Liles, who is one of the most prominent actresses in the West, appears to great advantage in this excellent little stage vehicle, and her charms and exceptional talents are excellently displayed. Her associates in the pleasing little act are Leota Howard, a clever actress, and J. S. Thompson, a talented actor. Their offering was one of the hits of the show last night.

Among the run-makers at the Princess for the last half of the week Henry Rego, "that funny little German," stands out distinctly, because of his originality of material and delivery. His act, "A Touch of Dutch," the motion picture of clever parodies, witty dialogue and a laugh-a-minute monologue.

C. L. Goodhue, dancing benjoist, has a novelty singing, dancing and instrumental act. He opens with the song "Automobile Homecoming," and then dancing to his own banjo music. He then drifts into a series of excellent numbers, including an imitation of "Kentucky Home," the Chanticleer Rag and a number from Il Trovatore.

Steth. Rederick, a most charming singing and dancing act, having appeared at the last moment in place of another act which was announced but could not arrive. She is a sweet-voiced singer, a very pretty woman with a world of personality in her face and voice. She was one of the big successes of the bill in a repertoire of well chosen songs. The motion pictures were so good that they deserve mention among the pleasures of the program.

## CARIBOU BRINGS IN 3,000 LIGHT GUSHER

Well Is Under Control and  
Is Flowing Steadily; Came  
In As Big Surprise

TAFT, Oct. 15.—The No. 3 well of the Caribou, on section 28, 31-23, which has been deepened, went into the oil sand Sunday and although some preparations had been made for a big well came in as a surprise to the drillers. Its flow of 3000 barrels daily going high over the derrick. The well is now under control, and is flowing steadily, an excellent indication of its neighbors on the Mays lease adjoining. The well was cemented some time ago and the water found to be entirely shut off. Because of this, the present production is all oil. Supt. Harry Dearn is now having a hard battle for the past year in an endeavor to put the property on a paying basis and with this well he has succeeded beyond all doubt.

## COOL SPELLACY IS VISITOR IN MIDWAY

TAFT, Oct. 15.—Col. Timothy Spellacy, head of the Independent Oil Producers & Consumers League, visited Taft one day last week, on a trip to the top of Twenty-five Hill, where he inspected his bets, the Muscat and Crescens properties, then for an hour chatted relative to pipe line matters at the Petroleum Club and went to Bakersfield, where he spent the evening while on the way to Los Angeles.

Spellacy is enthusiastic over the passing of the law by the legislature relative to making pipe lines common carriers, and is of the belief that when the lines carry oil on the same basis as the railroads the little fellows will have a chance.

While in Taft, Spellacy arranged with Supt. Ripple, of the Muscat, to start operations on the Crescens in the near future. As yet there is no contract signed up for the oil from the lease but there are indications that one will be forthcoming by the time the wells are cleaned out and ready to produce.

## DEVELOPMENT NEWS OF MIDWAY FIELDS

TAFT, Oct. 15.—A string of 3400 feet of 2 1/2 in. South Chester Tubing was hauled out in the past few days from the Independent Well Supply Company for use in the No. 4 well of the Midway Consolidated Ltd., on section 4, 32-23. It is believed that by putting in the tubing and agitating the well by pulling it on the beam it will come in with a flow.

A string of 3500 feet of Diamond B. X. 24 pound 6 1/4 inch pipe was hauled out during the past week from the California National Supply Company for use in the No. 8 well of the North American Oil company on the Section Two Syndicate division, on section 2, 32-23.

The Baltimore Oil company, on section 28, 32-24, is preparing to cement off below the last water sand in the No. 3 well which is down 2705 feet with 5 1/4 inch pipe. Dr. Hamilton is enthusiastic over the showing he has made in the drilling of this well, and is now feeling certain that it will be out a few weeks more until it will be in the oil sand and producing.

The Bronco Oil company is pulling the 4-inch string preparatory to going in and shutting off the water in the No. 1 well, on section 3, 11-23. The Midway Northern, on section 23-12-23, is pulling the 3-inch in the No. 3 well. It was formerly a good producer and is now to be cleaned out with an effort made to again make it a dividend payer.

## IS RUSHING WORK ON BIG WATER RESERVOIR

**Mt. Whitney Company Has  
Dam Above Giant Forest  
Nearly Completed**

VISALIA, Oct. 15.—Reports from the Wolverton damsite above the giant forest are to the effect that the Mt. Whitney Power and Electric Company is rushing the construction work on its new reservoir with all possible speed. The dam which will be 100 feet high, will impound 150,000,000 cubic feet of water, which will be used in developing electric energy. The new plant which will be known as No. 5 will have a capacity of 10,000 horse power. In addition to this vast undertaking, the Mt. Whitney is enlarging its local steam plant. With the installation of new boilers its capacity will be raised from 3000 to 10,000 horse power. The steam plant is used only in case of emergency as electricity can be developed from water power much cheaper.

## BANK IN MARICOPA SHOWS PROSPERITY

MARICOPA, Oct. 15.—At a meeting of the directors of the bank of Maricopa held last Friday in Maricopa that institution was found to be in a most prosperous condition. The meeting was attended by President William E. Connor, Vice President Walter Shook, directors J. J. Plante, J. B. Bakersfield, C. S. Dickerson, F. O. Turner, Dr. H. N. Taylor, S. G. Tryon, F. E. Shafer, V. D. Black and H. C. Mosher, of Maricopa. In the banks statement which had been prepared by Cashier C. J. Connor, the resources were shown to be \$1,700,000 and the deposits had increased from \$95,584 to \$1,000,000 in the past two years of the bank's existence. All of the bank's officers were highly pleased with the showing and Mr. Vander Horck was complimented on his efficient management of the institution's affairs.

## NOTIFIES CITY TO CLEAN SEWER FARM

PORTERVILLE, Oct. 15.—Complaint of conditions at the farm were made here last week by C. E. Paik, the county district inspector. He took up this question with Dr. O. C. Higgins, city health officer, who is also a member of the city council. Higgins' opinion was expressed emphatically and to the point, and he stated that he personally has made several attempts to have the council appropriate the money for having it cleaned up.

## Here's a Cure For Sciatica

**Painful Form of Rheumatism  
Quickly Overcome.**

Those sharp darting pains that characterize sciatic rheumatism should be treated in the blood. And by using R. B. S. you not only get relief but a cure. R. B. S. has the peculiar action of soaking through the intervertebral discs into the blood. In five minutes its influence is at work in every artery, vein, and tiny capillary. Every membrane, every organ of the body, every emunctory becomes in effect a filter to strain the blood of impurities. The stimulating properties of R. B. S. compel the skin, liver, bowels, kidneys and bladder to all work to the one end of casting out every irritating, pain-inflicting atom of poison. It dissolves by irritation all accumulations in the joints, causes acid accretions to dissolve, renders them neutral and scatters those peculiar formations in the nerve centers that cause such mystifying and often baffling rheumatic pains.

And, best of all, this remarkable remedy is welcome to the weakest stomach. If you have dragged yourself until your stomach is nearly paralyzed, you will be surprised to find that R. B. S. gives no sensation but goes right to work. This is because it is a pure vegetable infusion, is taken naturally into your blood just as pure air is inhaled naturally into your lungs.

You can get R. B. S. at any drug store. R. B. S. is a standard remedy, recognized everywhere as the greatest blood antiseptic ever discovered. If you are a peculiar case and you desire special information, write to The Swift Specific Co., 221 Swift Bldg., Atlanta, Ga.

## Bakersfield Decides To Regulate Public Utilities By Itself

BAKERSFIELD, Oct. 15.—The board of city trustees last night resolved to take no steps toward putting the control of local public utilities corporations in the hands of the State Railroad commission, and thus stripping themselves of power. A committee of citizens went before the board for the purpose of discussing the matter. It was made known that any city which so wishes may put its corporations under control of the railroad commission, and in view of the agitation here in regard to the alleged overpricing of gas, the trustees were invited to consider letting the state body have charge of the matter. This step was last night voted to be inadvisable, and voted down.

## OIL CARNIVAL OPENS WITH IMMENSE CROWDS

**Celebration to Commemorate  
18th Anniversary of  
Oil Discovery Begins**

COALINGA, Oct. 15.—The celebration to commemorate the eighteenth anniversary of the discovery of oil in this field opened this evening with a big merchants' automobile parade through the principal streets of the city. A monster crowd was in attendance, both from the city, the leases and from neighboring towns. The celebration continues tomorrow, and a good program of amusements has been provided for the remainder of the week.

On the Great Bright Way amusements will be found for every one. The Coalings band is furnishing all music and a street dance concludes each evening's performance. Pantomime and go-go performances on Fifth street will furnish fun for the young grammar school boys; tug-of-war, water fight and rope splicing contests will also be on the program. The city council has authorized the Foley-Burke Amusement company to make the day and night pass quickly away. A program for each day is arranged, and there will be something going on every minute. The committee has worked hard and already one can tell that the entire celebration will be a huge success. Saturday night is the big night of the week. A parade of the horrors and the crowning of the carnival, "King Sunn Hoie," being two of the most important features. No one seems to know just who will be king, and everyone is looking forward to this with much interest. A fun masked street dance, confetti, serpentine and other carnival features will be the finale of Coalings's oil carnival.

No one seems to know just who will be king, and everyone is looking forward to this with much interest. A fun masked street dance, confetti, serpentine and other carnival features will be the finale of Coalings's oil carnival.

On the Great Bright Way amusements will be found for every one. The Coalings band is furnishing all music and a street dance concludes each evening's performance. Pantomime and go-go performances on Fifth street will furnish fun for the young grammar school boys; tug-of-war, water fight and rope splicing contests will also be on the program. The city council has authorized the Foley-Burke Amusement company to make the day and night pass quickly away. A program for each day is arranged, and there will be something going on every minute. The committee has worked hard and already one can tell that the entire celebration will be a huge success. Saturday night is the big night of the week. A parade of the horrors and the crowning of the carnival, "King Sunn Hoie," being two of the most important features. No one seems to know just who will be king, and everyone is looking forward to this with much interest. A fun masked street dance, confetti, serpentine and other carnival features will be the finale of Coalings's oil carnival.

## TULAREANS PLAN TO ENTERTAIN DAIRYMEN

**State Convention Will Be  
Held November 6 to 8;  
Women Will Assist**

TULARE, Oct. 15.—The reception committee of the Tulare County Dairymen's association has laid further plans for the entertainment of the visiting state dairymen and creamery operators who will be here to attend the convention November 6, 7 and 8. It was decided that L. O. G. P. Hall would be used for the day sessions of the convention and the high school auditorium would be used for the night sessions.

Next Wednesday the members of the committee will meet with the Women's Club to talk over plans for providing accommodations for the visiting delegates.

The badges to be furnished delegates will be a white ribbon upon which will appear the figure of a Holstein's cow.

A note committee made up of Messrs. R. A. McCoy, J. H. Ischschmidt, F. C. Hubert and J. A. Crabtree will assist in the musical entertainment.

## ROAD WILL CHANGE NAME TO MARICOPA

**Oil Field Town Will No Longer Be  
Designated As Monarch on Time  
Tables and Maps**

MARICOPA, Oct. 15.—The first steps toward the changing of the name of Monarch station to Maricopa were taken last week by the Atchison, Topeka & Santa Fe Railroad officials when the commissioner of railroads, A. G. Shear at Chicago, was notified by the Santa Fe of the change. The Santa Fe, publisher of freight and tariff bureau in Chicago, was given the go-ahead by Mr. W. G. Barnwell, assistant freight and tariff manager of the Santa Fe to make the change in the tariff sheets which are to be published in November.

Through the efforts of W. G. Barnwell, traveling freight and passenger agent for the Santa Fe, the higher officials were prevailed upon to change the name to Maricopa after the various electric bodies on the West Side, had combined in their efforts on having the change made. The matter had been taken up with the Southern Pacific over two years ago when that company was operating the Santa Fe road and it was turned down. It was then taken up with the Santa after that company took over the management of the road but as the Southern Pacific opposed the change it was never granted. About six weeks ago it was again taken up and has now been settled.

## IDEN IS ARRAIGNED IN SUPERIOR COURT

**Saturday Is Set As Date for Making  
Plea On Two Counts of Indict-**

**ments At Visalia**

VISALIA, Oct. 15.—W. A. Iden, the former Visalia minister who it was reported in the county jail on four criminal charges, was arraigned on the first two informations, charged before Judge J. A. Allen today. He asked for time in which to plead and this was granted, Saturday at 10 o'clock and Monday at 10 o'clock when the plea must be entered. Iden filed answer to the quiet title suit brought by the Elks Land Company and others in which he disclaims any interest in the suit or the land alleged that he has conveyed his interest to P. B. Shewwood, one of the several to whom Iden is alleged to have sold land which did not belong to him.

## NEWS JOTTINGS OF TURLOCK'S LODGES

TURLOCK, Oct. 15.—Turlock lodge, No. 33, Knights of Pythias, conferred the third rank at its last meeting on J. H. Little of this city and Colonel Cy Clark of Modesto. The latter was accompanied by about twenty-five members. Modesto lodge No. 31, the Infantry, also conferred the third degree team of Turlock lodge, was witnessed by over one hundred members of the order. In addition to the Modesto delegation, the lodges at Fresno and Newman were represented. A banquet followed the conferring of the rank.

Court Turlock, No. 499, Independent Order of Foresters, gave a social and entertainment last evening. A large number of members and visiting Foresters were present. Organizer J. D. Kerns, of San Francisco, gave an extended address on the state of the order, and an additional feature was an elaborate musical and literary program, followed by a banquet. Court Turlock is one of the newer fraternal organizations of this city, having been chartered last March, and now having a membership of about sixty.

Turlock Car No. 195, Workmen of the World, gave the secret lodge of the order to Fred Ohlndt Friday night. The camp is preparing for a social and banquet to be given on Friday evening of next week.

The Odd Fellows have elected J. S. Slag and Arthur Crowell delegates to the district convention of the order to be held in Modesto October 28. They will be accompanied by a large number of members of Turlock lodge.

W. R. Cook and W. W. Abbott are in San Francisco this week, attending the Grand Lodge, G. A. M., as delegates from Turlock lodge, of the Masonic fraternity.

A large number of Turlock Elks are planning to go to Modesto next Saturday night to attend the dedication of the new Elks hall in that city.

## ASK NEW TRIAL ON JUROR'S STATEMENT

VISALIA, Oct. 15.—An affidavit in support of a motion for a new trial in the case of Dr. J. B. Spang was filed today by the Dixie Ranch company of Los Angeles. The complaint alleges that the plaintiff company entered into an agreement to buy the Wilcox Valley ranch of 1480 acres for \$38,800, and claims representations as to the amount of tillable land consisting in 1400 acres, whereas they allege only 400 acres are capable of being cultivated.

## BOWLING LEAGUE IS ORGANIZED FOR WINTER

Six Teams Will Play Schedule of Five Months; Opens Monday  
Three Games Will Be Played Each Week; Five Men Compose Team

Organization of the Fresno Bowling League was effected at the meeting of last night with the choosing of teams and the adoption of by-laws governing the winter season. The league will play a schedule of five months, three games to be played each week for the next four or five months. A complete schedule will be issued within the next few days.

With the exception of one or two players, the league rules governing the game remain the same as those of last year. All games will be started promptly at 8 o'clock. A practice period of fifteen minutes before the hour is given. Last season considerable injury was caused by the inability of captains to get their men on the ground.

Five men compose a team, with one substitute. In case a captain has not the required number of men, a dummy will be used. Should a man enter the contest after the first ten minutes, he will be given eight points for each inning missed.

No players starting with one team will be permitted to withdraw and go to another team during the playing season. This ruling will prevent strengthening at the expense of another club. Should a player voluntarily leave a team, the captain may sign another man, but is prohibited from releasing a player.

C. J. Bush, who held the position of official scorer last season, was elected. Point judges will be selected each night by the captains of the contesting teams. Pin judges will be also selected by the captains.

Following are the teams entered: Simmons Stars; Simmons Sharks; Ward's Wanderers; Hansen's Hopes. The following men have agreed to play the season out: Simmons Stars, Simmons (captain), B. Maul, Sharp, Hunt, Callahan, Greeley.

Sorenson Sharks, Sorenson (captain), Capo, Hoag, Wentzel, Baldwin, Jensen.

Budger's Boaters, Budger (captain), Derr, Suttenger, Ballard, Barr, G. Maul, Keyes, Kleckers, Keyes (captain), M. Maul, Lish, McNeil, Duncan, Britton.

Ward's Wanderers, Ward (captain), B. Smith, York, Lauder, Camp, Forester, Hansen's Hopes, Hansen (captain), McMichael, Stone, Tannehill, Mitchell, Weber.

## STAGG SATISFIED WITH CHICAGO'S NEW ATTACK

CHICAGO, Oct. 15.—Coach Stagg, of the University of Chicago football squad, informed the players today that he was satisfied with their attack plan for Saturday's game with the University of Iowa. Another 6 to 5 scrimmage with the freshmen failed to raise Stagg's estimate of the defense, however.

## SEALS COME FROM BEHIND IN EIGHTH

Liefield Pitches Tight Ball for Howard; Ables Out in Ninth

SAN FRANCISCO, Oct. 15.—San Francisco came out from behind today in the eighth inning in the game with Oakland and scored two runs, winning by a 4 to 3 score. Liefield, on the mound for the Seals, pitched good ball. Ables for Oakland was taken out in the ninth and Stone substituted. Each side made three errors. Score:

## DUCKS MAY WIN PENNANT TODAY

Must Win Both Games of Double Header to Take Coast Flag

LOS ANGELES, Oct. 15.—By defeating Los Angeles today, Portland and it possible to clinch the Pacific Coast league pennant in tomorrow's double-header. The Beavers went out in front in the second inning and were never headed. A double play in the sixth inning preceding Ryan's home run into the right field bleachers kept them in the lead. The final score was 5 to 3. Peritt started for the Angels but injured his leg while sliding into second base in the fifth inning and it was necessary to carry him to the clubhouse. Los Angeles played an indifferent game throughout, presenting Portland with numerous opportunities. The score:

## FIGHT BETWEEN KELLY AND WALTERS OCT. 23

SUPERIOR, Wis., Oct. 15.—The ten round bout between Spike Kelly and Billy Walters aspirants to the water-weight championship scheduled to take place here Friday night has been postponed until October 23 on account of an injury to Walters.

## GEERS' COLT WINS CASTLETON TROPHY

Cheney, Famous Texas Mare Defeated In Straight Heats

LEXINGTON, Oct. 15.—Anvil, driven by the veteran Pop Geers easily won the Castleton, the feature of today's grand circuit races, beating Cheney, the famous little Texas mare in straight heats. Cheney finished second in the first heat, Robert Milroy taking second place in the final round. The gold cup, donated by David M. Look, owner of the Castleton, was presented to Geers by George A. Rain on behalf of the association.

The 2-11 trot went to five heats and was won by Reddie Jr. after the son of Reddie had lost the first and third heats. Cox brought his back in good shape in the fourth and fifth. Ramsey Constantine won the first and third heats.

The pacing division of the Kentucky Futurity, a two horse race was won by Homer Baughman in straight heats. Tully Tipton being his opponent.

The 2:16 pace was won in straight heats by Great Scott, second money going to Donald McKay.

## SENATORS CLIMB TO SECOND PLACE

Wolves Found Roy Hitt Off Slab In Second Frame; Score 7 to 1

SACRAMENTO, Oct. 15.—The Sacramento Wolves climbed into second place today when they bounded Roy Hitt off the slab in the second inning and scored up the game with a total of seven runs. Venice put only two men past second, McLean scoring in the eighth on an infield out when none of the locals thought it worth while to try to head him off at home. Singles by Moran, Hallinan, Lively, Shinn, Young and Swain, a two-bagger by Tennant, a walk to Stark and a sacrifice fly to Bliss figured in the seven runs that the wolves put over in the second frame. Edmondson relieved Hitt and after the second inning allowed only two hits. Score:

Left on bases—Venice 7; Sacramento 5. Stolen bases—Young, Swain. Time of game—1:50. Umpires—Held and McCarthy.

## RING FIGHTER MAY DIE AS RESULT OF BLOW

PHILADELPHIA, Oct. 15.—Harry Lewis, the middleweight pugilist, is still in a serious condition at the hospital, where he was taken Monday night after his fight with Joe Borrell. He spent a restless night and attending physicians said the prospects for his recovery were not favorable.

## WORLD BALL TOUR STARTS SATURDAY

Thirty-Five Games Will Be Played In the U. S.; Ten In California

CHICAGO, Oct. 15.—Thirty-five games will be played in the United States by the White Sox-Giant stars who inaugurate their world tour at Cincinnati Saturday. Beginning October 18 they will play every day, the weather permitting, up to and including November 19. After their game at Seattle on that date they will climb aboard a chartered tug which will carry them to Vancouver, B. C., where they will take the liner which will carry them to the Orient.

The itinerary of the trip as far as Vancouver, as given out today at the White Sox headquarters, follows: October 16, Cincinnati; October 17, Chicago; October 20, Springfield, Ill.; October 21, Peoria, Ill.; October 22, Ottumwa, Ia.; October 23, Sioux City, Ia.; October 24, Sioux Rapids, Ia.; October 25, St. Joseph, Mo.; October 26, Kansas City, Mo.; October 27, Joplin, Mo.; October 28, Tulsa, Okla.; October 29, Fort Smith, Ark.; October 30, Bonham, Texas; October 31, Dallas; November 1, Beaumont, Texas; November 2, Houston, Texas; November 3, Marlin, Texas; November 4, Abilene, Texas; November 5, El Paso, Texas; November 6, El Paso, Texas; November 7, Bisbee, Arizona; November 8 and 9, Los Angeles; November 10, San Diego, Cal.; November 11, Oxnard, Cal.; November 12, Sacramento, Cal.; November 13, Oakland, Cal.; November 14 and 15, San Francisco, Cal.; November 16, San Francisco (morning); November 17, Medford, Oregon; November 18, Portland, Oregon; November 19, Tacoma, Wash. (morning); November 19, Seattle, (afternoon).

The season of the White Sox has not yet been completed, but the list already contains the names of Callahan, Scott, Benz, Leveaux, Schalk, Chase, Chapman, Weaver, Sam Crawford, Schaefer and Fournier.

President Comiskey's aggregation will leave here tonight for Cincinnati on a special train.

## DUCKS ARE SCARCE IN SAN JOAQUIN VALLEY

Gun Clubs Have Only Good Shooting to Be Found By Hunters  
Duck Disease Keep Sportsmen Away From Kern and Tulare Lakes

With a few exceptions, ducks are scarce in every district of the San Joaquin valley, according to the reports brought to Fresno last night by hunters returning from their first day's shoot of the season. Not only is Fresno county without a great quantity of this game, but Kings, Tulare and northern counties as well.

Only on the gun club preserves, where the food and ponds have been improved by artificial means, are the ducks at all plentiful. Lack of water in other parts of the valley is given as the reason for the scarcity. Of the two, quail are more plentiful. Especially in the mountainous districts and the open grain fields do the hunters find excellent shooting.

Reports of those returning from the Temple Gun Club property at Firebaugh last night stated that ducks are everywhere. At C. Blackwell secured the limit of spring in one day's shoot, while the remaining members of the party, twelve in number, secured a good bag. Members of the Basin City Gun Club hunted at Oxnalis with varied success.

Yesterday was one of the biggest days in the sportsmen's history. Twenty-two hunting licenses were issued at the office of the county clerk, David Barnwell himself, county clerk, secured a license and, declaring a half holiday, went to the fields for a shoot. Barnwell estimated that 4000 licenses have been issued since June.

Sportsmen are not visiting Tulare lake in search of ducks, according to information given out by E. W. Sullivan, deputy fish and game commissioner atanford. The disease now afflicting the lake has quite convinced the sportsmen that the ducks are not fit for food. Only market hunters have been seen at the lake. A very few of the birds are to be located in Tulare and Kings counties, although quail seems to be plentiful.

Kern county is suffering from the duck disease. Thousands of birds have flocked to Buena Vista lake and the majority of them are thought to be unfit for food.

## CHAMPIONS WIN IN GOLF ROUNDS

Women of England and Ireland Remain Even In Wilmington Play

WILMINGTON, Del., Oct. 15.—Miss Muriel Dodd, English and Canadian champion; Miss Gladys Ravenscroft, last year's English champion and Miss Mabel Harrison, the Irish champion, won their matches in the second round for the women's National golf championship today on links of the Wilmington Country Club. The American survivors who will enter the third round with the victors tomorrow are Miss Marion Hollis, of New York; Metropolitan champion; Miss Harriet Curtis, and Miss Fanny Osgood of Boston; Mrs. Clarence H. Vanderbeck, and Miss E. H. Fitter of Philadelphia.

The Canadian, Western New Jersey and Delaware entries were all eliminated in today's round. Miss Violet Rooley, of British Columbia, was defeated by Miss Dodd, 5 up and 2 to play; and Miss Florence Harvey, of Hamilton, Canada, lost to Miss Hollis, 1 up.

Miss M. Helmar, Western champion; Miss Caroline Painter, Miss Colburn and Miss Elaine Rosenthal, all of Chicago, lost their matches to Miss Osgood, Miss Harrison, Mrs. Vanderbeck and Miss Ravenscroft, respectively. Mrs. E. R. Stockton of Plainfield, N. J., who yesterday defeated Miss Margaret Curtis, holder of the American championship since 1911 lost today to Miss Harriet Curtis, a sister of the defeated champion. Miss A. L. Cahn, New York, defeated by Mrs. Fitter, in the matches tomorrow. Miss Ravenscroft will play Miss Osgood, Miss Hollis will play Mrs. Fitter, Miss Curtis will play Miss Harrison and Miss Dodd will oppose Mrs. Vanderbeck.

## WORLD BALL SERIES WILL BE CONTINUED

CHICAGO, Oct. 15.—There is little likelihood that the world's series as played for the last half dozen seasons between the pennant winning teams of the National and American leagues will be replaced by a general inter-league conflict in which every club of one circuit would meet every club in the other.

B. A. Johnson, president of the American league, expressed that opinion today, arguing that for the good of the game, the present system should be retained, because of the great interest the series between the champions creates in every town and hamlet.

ST. LOUIS, Oct. 15.—Edward Ray and Harry Vardon, the British professional golf champions, defeated Boris Miller and Jesse Vardon on the Normandy links today. Ray made the course in 72 and Vardon in 75. Dogey for the course is 73.

**ENGLISHMEN DEFEAT AMERICANS IN GOLF**

ST. LOUIS, Oct. 15.—George Stovall, manager of the St. Louis Cardinals, said today that unless he obtains his unconditional release from the local team by tomorrow, he would begin negotiations with the Kansas City Federal league club, which has offered him the position of manager.

## DALTON-BOOKER GO EXCITES BIG INTEREST

The Kid Probable Favorite In Betting; Both Men In Good Shape

MARICOPA, Oct. 14.—Interest in the Dalton-Booker boxing contest is running high on the west side, and the two boys are drawing large crowds daily to their training quarters where they are rounding into shape for Saturday night, when they will meet in a 20-round bout at the Majestic theater.

Kid Dalton and his brother Censer arrived yesterday morning and at once set up training in the Maricopa Athletic club's gym. Monday afternoon a large number of fight fans gathered to witness the clever little Italian go through his paces. All seemed well pleased with his gait and the probabilities are that he will be a favorite in the betting.

Booker arrived Sunday evening and established his quarters in the Palace and will condition himself at the Kern county baths. He appeared in fine fettle Monday afternoon, when training was very fast and clever. These boys were familiar with his condition state that he is in far better shape than when he fought a 20-round draw with Campi.

A large number of fans are expected from Tolt, Fresno and Bakersfield. The arrangements for their transportation are now being made.

**JEFF TESREAU TO MARRY NEW YORK GIRL TODAY**

NEW YORK, Oct. 15.—Charles Monroe Tesreau, the New York National League club's huge pitcher, familiarly known as Jeff, got a license today to marry Miss Helen Elizabeth Blake of New York. The wedding will be tomorrow.

Tesreau will be the third member of the Giants to marry in three weeks. The future Mrs. Tesreau is a stenographer.

## NEW ZEALAND BLACKS DEFEAT STANFORD MEN

STANFORD UNIVERSITY, Cal., Oct. 15.—With perfect attack and defense, the New Zealand All Blacks Rugby team overpowered the Stanford varsity team by a score of 54 to 6. Stanford was unable to break up the New Zealanders' back field passing and forward dribbling. The varsity attack was easily broken and after thirteen minutes of play New Zealand scored 10 points. At the end of the first half the score stood 31 to 0.

## SULZER'S FATE MAY BE KNOWN TONIGHT

High Court Said to Have Taken Informal Vote On One Article

ALBANY, N. Y., Oct. 15.—It is probable that the fate of Governor Sulzer will be known by tomorrow night.

When the high court of impeachment adjourned tonight it was said that the final vote probably would be taken at an open session tomorrow afternoon. No official confirmation of this report could be obtained, however. All the deliberations of the court today were held in secret. There was an insistent rumor that the case had progressed so far as to have reached an informal vote on the guilt or innocence of the governor on the first article of the impeachment. This relation charges the governor with inflicting his campaign statement.

The names of only thirty-two of the fifty-seven members of the court had been called when it was decided to adjourn. It was said, was given an opportunity to express his opinion on the merits of the article and the same procedure will be followed at the open session tomorrow afternoon.

**AMERICAN GIRL TO WED GERMAN DUKE**

GENEVA, Switzerland, Oct. 15.—The marriage of Miss Nancy Lohmann, daughter of the former American ambassador at Berlin, to the Duke of Croÿ, is to take place on October 28. The Catholic bishop will perform the religious ceremony in the cathedral here following the civil ceremony. The wedding will be of the simplest character. The mother and two daughters of the Duke of Croÿ intend to be present.

## GOODYEAR BALLOON WINS BENNETT CUP

PARIS, Oct. 15.—Official announcement was made today of the victory of the American balloon Goodyear in the international race for the James Gordon Bennett cup. The last competitor, the Frankfurt representing Austria, was reported this morning as having landed at Bougeat, near St. Malo, on the English channel.

The American aeronauts also obtained second place with the balloon piloted by Captain H. E. Honeywell, while Italy was third with the balloon of Signor Pastime.

**MINISTER IS SUED FOR BIG DAMAGES**

LOS ANGELES, Cal., Oct. 15.—Rev. Charles Edward Locke, pastor of the First Methodist church, is a defendant in a \$100,000 damage suit alleging malicious persecution on the in the Superior Court today. The plaintiff, Frederick Thorsen, recently was adjudged mentally incompetent in a judgment rendered by a jury in which Dr. Locke appeared as a witness against her. John S. Myers, city auditor, Walker H. Fisher and S. P. Mulford are named as defendants jointly with Dr. Locke.

**HAS THRILLING TALE OF CHINA REBELLION**

SAN FRANCISCO, Oct. 15.—George Wells of the city, has just returned from the Orient, was a participant in several thrilling episodes incident to the rebellion in China. During the engagement at Woussing he was in command of a rebel gunboat whose crew mutilated and Wells with his staff of white officers engaged in a hand to hand conflict with the frenzied Chinese. The mutineers blew up one of the ship's magazines and Wells was badly injured and would have lost his life but for the timely arrival of assistance from another vessel.

## MANY ARE INJURED IN FOOTBALL PLAY

Zululand Prince Pronounces American Game Brutal

CHICAGO, Oct. 15.—The weekly list of football injuries is appalling as compared to records of "casualties" in combat of the last war, according to an authority on the Chicago Daily News. Despite the new rules many of which were designed to "eliminate roughness and lessen chances of injury" the "new" game makes the "old" look like a "Pillar of Fire," he says.

The critic does not blame the modern code or method of play for all the injuries, but says the changes, have, in part, defeated their very purpose, because they are responsible for losing of the skill with which old time players avoided injury. He cites the injury to a player of the University of Chicago, weighing only 142 pounds, who went through four seasons under the old rules, carrying the ball more than any other player on his team, and yet asked for "time out" only once. Several years later, a successor to this player, weighing more himself, but opposing men of less weight than the "old timers" was taken out in his first college game, suffering more bruises than the first man's total in his whole career, according to the critic.

BOSTON, Oct. 15.—"American college football is altogether too brutal," said Prince Madikane Q. Cele of Zululand, who has been attending at the subject as the guest of the family of Robert T. F. Storer, captain of the Harvard varsity football team. The prince expressed the intention of introducing "milder forms" of the game into his country, as well as basketball and baseball.

Dr. A. L. Hunt cures rheumatism. —Advertisement.

## MEETING NOTICES

**MEETING NOTICES**

**RELOCATED** J. Denmon.

**FOR RENT—Flats**

## TRAP SLAYER BY DICTOGRAPH; CONFESSES WHEATLAND MURDERS

Net of Evidence Woven About Herman Suhr In Fresno County Jail; Burns' Man "Planted" In Cell; Admits Killings In Hop Pickers' Riot

A net of evidence woven about Herman Suhr, mostly through the aid of a dictograph and the "planting" of a detective in his cell at the Fresno county jail, has resulted in the securing of a complete confession from Suhr—that he is the man who fired the shots last August at Wheatland, during a riot on a hop field, which caused the death of District Attorney McSwain and Sheriff Reardon of Yuba county. Two hop pickers were also killed in the riot. Suhr was lodged in the local jail on the morning of October 2 and was taken out two days later after much damaging evidence had been secured against him. Suhr made his confession to Sheriff Frank Burnett at Oakdale, and his deputies and District Attorney McSwain are given much credit for having in two days, assisted by Burns operators, secured sufficient evidence against Suhr to bring about his confession to the law officers. Suhr was questioned for hours by the Fresno officers, and Burns' men. Every word he said was taken down by a shorthand reporter, every word Suhr uttered in his cell to his fellow prisoner was overheard by Sheriff McSwain, his deputies or the Burns' detectives, and finally used against him. Suhr was on the verge of breaking down and making a complete confession to Sheriff McSwain on the second day of his questioning in the county jail but he was turned over to the Yuba county sheriff, who had brought him from Arizona, and taken to Oakdale.

Plans to trap Suhr at the Fresno county jail were laid long before the prisoner arrived in this city. Burns' men were on the scene days before Suhr was booked at the local jail as a prisoner enroute to Wheatland and

arrangements were made with Sheriff McSwain to secret a dictograph in the cell where Suhr would be lodged. Wires were run from the cell into a private room in the jail. Or all the jails between Arizona and San Francisco the Burns' men picked Fresno as the best place to lay a trap for the suspected murderer.

**DETECTIVE IS CELLMATE**  
The plans of the Burns operators and the sheriff were successful. A detective was dressed in old clothes and lodged in the jail as a tramp. He mingled with the prisoners and made himself agreeable. Suhr was brought to the county jail by Deputy Sheriff Bauman from Wheatland. He was put in the cell with the detective and the two became cellmates. They conversed and their talk gradually drifted to the charge on which Suhr was arrested. Suhr was led on by the detective while officers in another part of the jail with receivers to their ears listened to every word being spoken in the cell. Suhr was then taken from his cell and questioned. He denied being at Wheatland during the riot. Suhr was returned to his cell. The officers again listened to his conversation and he was taken back and questioned. Little by little Suhr's story was broken up until he admitted being in the vicinity of the hop field but said he went back when he heard of the riot and was not present. Suhr was finally questioned in his cell by the sheriff and broke down and cried. He said he was a hop picker and a Burns operator. He was then taken to the outside officers, hustled over to Oakdale where no made his confession.

According to the confession made by Suhr he was in the L. W. W. crowd at the hop field during the trouble and when the sheriff and his men arrived. When an attempt was made to arrest "Blackie" Ford, an L. W. W. Suhr says, he became insane, seized a revolver from an old man standing by his side and blazed away at the sheriff and the district attorney.

**TELLS OF HIS ESCAPE**  
In the confession Suhr made his escape from the crowd, walked down the railroad tracks to Roseville, where he met Ford. He then went on to Stockton where his wife and two children resided and he worked for a few days. He returned to Stockton, gave his wife and little money he had earned and started out on foot. He traveled down the San Joaquin Valley, stopped in Fresno, and burned his way to Arizona. Suhr was being followed all the time by Burns' men, who had been engaged by the Yuba county officials to run to earth the men guilty of killing the district attorney and sheriff. Suhr was trailed to a little town in Yavapai county, Arizona, where he made the acquaintance of a junk peddler. The peddler was a Burns operator. Suhr talked of the Wheatland riot and murder, implicated himself and was arrested.

Several L. W. W.'s and others are being held in jail "about" the "hop" calling the trial for the killing of the two law officers. Burns' men are still working the case as many witnesses are still missing.

**WIDOW PROVIDED WITH LIFE ESTATE**  
The will of M. S. Grace, who died on October 1, was filed for probate yesterday in an estate of real and personal property valued at \$2000. The document gives to Mary Grace, a life interest in lots in city block 324. Upon her death the property will rest in the four adult children. The will is dated July 11, 1912.

**SAYS PARTNER HAS OVERDRAWN \$2000**  
Suit was brought yesterday by Juan Elizalde against S. Arrango for a dissolution of the partnership in the Capital Hotel at 1101 G street. Elizalde says Arrango has overdrawn his account by \$2000. As he is claiming further indebtedness against the partnership, it is asked that a receiver be named.

## MOVE TO DISMISS GAMBLING CASES FOR UNREASONABLE DELAY

City Attorney Smith Begins  
With Dismissal of One  
of His Own

City Attorney L. H. Smith made a move yesterday to dismiss a gambling case pending in the superior court. In at least six of the long pending Chinese gambling injunction cases, motions were filed with notices served on the defendants that on Monday next he will ask for a dismissal of these cases because of "unreasonable delay" in prosecuting them to a finality. The notice to the defendants was forwarded to the court on Monday.

To fortify his position in these cases as the attorney for the city, Attorney Smith filed as a preliminary dismissal in the case of the Chinese Development Association against former Police Chief Jones, restraining him from making riding visits to the establishment at 1325 Tenth street. The restraining order in this case has been of record since March 21, 1912. In this case L. H. Smith was the attorney for the association before his official connection with the city as its legal adviser.

The motions to dismiss made yesterday are in the following cases:  
Before Judge Austin: Case of Lee Kong Noy, D. T. White, attorney; New Chinese Mutual Improvement Society, Harris & Hayhurst, Oriental Improvement Association, Everts & Ewing.  
Before Judge Churchill: Oriental Fruit Canners' Association, Everts & Ewing; Lee Sang Sam, D. T. White and Chinese American Literary Society, D. M. Cashin.

## LAST OF COLONISTS ARRIVE IN STATE FOR THIS SEASON

The last of the colonists from the East to this state who took advantage of the low rates that were offered them by the railroads have arrived. As usual the last three or four days of the season were the most crowded as many people always like to wait until the last moment to go or to make up their minds to do so.

The trains which have been carrying these people to California have been crowded to their limit of late and in many cases two sections had to be put on.

While the railroads have not been able as yet to compile figures as to how many people took advantage of the rates, they estimate that fully 30,000 went to Southern California and about a like number to the northern part of the state.

Several of these people have visited the San Joaquin valley and many of them have already made their homes here.

**RULES ADOPTED FOR  
PLAY GROUNDS BOARD**  
Its Meetings Will Be Held  
Hereafter At Y. W.  
C. A. Rooms

The City Playgrounds Commission met last evening at the city hall and with slight modifications adopted the set of rules and regulations submitted by a special committee for the government of the commission.

Its regular meetings were set for the first Tuesday in the month, with four of the seven members constituting a quorum. The commission has been placed at the disposal of the commission, but to have its regards to fund the informal decision was that the meetings shall hereafter be held at the Y. W. C. A. for the convenience of the secretary, Miss Ruby A. Granger.

The secretary of the commission was also made the custodian of all funds not coming in as revenue or appropriations from the city. The following committees were provided for, each composed of three members, and the personnel to be announced by President Epstein in a few days:

Improvement and maintenance of grounds.  
Supplies and apparatus.  
Instruction and employees.  
Finance.

The commission will appear as a body before the city trustees at their meeting on Monday evening to ask for an appropriation of \$4,500 for this year's work, continuing upon which the activities of the commission will be carried out. Chairman Epstein asked the ladies and gentlemen to come in their "war paint," which suggested on the part of the city superintendent that "team work" be also prearranged for that occasion. The decision was that J. Q. Anderson and Chairman Epstein shall be the spokesmen for the commission.

## SANTA ROSA ENGINEER VISITS SEWER FARM

City Engineer J. C. Parsons of Santa Rosa was a visitor yesterday afternoon to the city sewer farm under the chairmanship of Trustee Pickford. He and wife arrived yesterday morning on a visit and he for the special purpose of inspecting the farm and the septic tanks of which the Fresno delegates told him so much about at Venice at the convention of the League of California Municipalities. City Engineer Cronkite was absent yesterday on a duck hunt, which he would have delayed had he known that Engineer Parsons' promised visit would follow so soon upon the convention meeting.

## SAFECRACKERS GIVEN TO TODAY TO PLEAD

The three safecrackers in the Holland grocery store were given yesterday by Judge Austin until today to plead to burglary. The delay is to permit their attorney, Carroll A. Cook of San Francisco, to examine the information and advise them as to their sufficiency. Police Liege, informed against for a high misdemeanor, pleaded not guilty and trial was set for October 21.

## Wooltex Catalog

—Our beautifully illustrated catalog of the famous Wooltex suits and coats is now ready for you.  
—A free copy will be mailed you on request, or you can get one when you are in the store next.
